Senate Resolution No. 145

Relative to a Senate Committee on State and Local Taxation to make inquiry into every phase of taxation, creating the committee and defining its powers and duties

WHEREAS, The economy of the State of California has during the recent years gone through a revolutionary change, so that industry has assumed an increased importance in relation to agriculture, mining, and commerce; and

WHEREAS, This change has resulted in bringing into the State industries and properties of large value which have not previously been considered in our tax structure, and has created new governmental problems; and

WHEREAS, The increased population incident to this change in our economy has also created new governmental problems and made new demands upon both local and State Governments; and

WHEREAS, The unprecedented growth of motor transportation and the change-over to the use of diesel fuel in motor transportation during the war period, together with the added population of our State and the concentration in industrial centers, has materially changed the requirements for the support of highways, streets, and bridges; and

WHEREAS, It appears that there may be large sums in the way of federal subsidies granted both to the state and local governments which will directly affect the revenue structure and will require careful examination to coordinate the disposition of these subsidies equitably into the entire revenue program of both state and local governments; and

WHEREAS, From the beginning of the State's history, the ad valorem tax has been and still is the fiscal mainstay of local government and has not been adjusted to meet the new conditions; and

WHEREAS, The administration of taxation by the State and by the local governments has not been modernized, in fact has not been materially changed to bring it into line with present or prospective needs; and

WHEREAS, The relative burden of our several taxes on the different classes of taxpayers and different classes of property has not been fully determined; and

WHEREAS, There are new classes of property and rights that have grown up in the State that are not subject to taxation; and

WHEREAS, The acquisition, holding and exchange of land in this State by the United States of America has many aspects and involves varied and varying relationships, including the bearing and effect thereof upon taxes levied or leviable by the State and by local governmental units within the State; and

WHEREAS, Neither the State nor local governments have available to their legislative bodies information concerning all the varied phases of this problem adequate to legislative consideration and action in the endeavor to find and effect a solution; and

WHEREAS, For many years the burdens of government have been increasing both for the State and local governments, including many fixed charges not controllable by administrative bodies but brought about in answer to the demand of the people expressed in continuing legislation or in constitutional requirements, it is imperative that an appraisal be made so that revenues may be made adequate to meet the demands of government, both local and state, and the burdens of taxation may be equitably distributed upon and among the several classes or property and of taxpayers; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

1. The Senate Committee on State and Local Taxation is hereby created, authorized and directed to ascertain, study, and analyze all facts relating to or in any way bearing upon any of the subjects mentioned in the recitals of this resolution, particularly including but not limited to each phase of each and every tax (as herein defined) imposed in this State by any governmental agency (state, local, or federal); the incidence and burden of each such tax upon property, business and the taxpayer and the ability of the latter to pay, also the productivity of each such tax in relation to its cost of administration and in relation to the purposes for which imposed, each of which factors of each tax the committee shall consider, weigh, appraise and evaluate with each such factor of every other tax; the bearing and effect upon state and local taxes and expenditures of the acquisition, holding and exchange of lands in this State by the United States; the present and prospective revenue needs of each agency of government and the most equitable means of meeting each such need, taking into

consideration all of the varied forms of tax now in use or that might be devised and put into use, and all existing sources of revenue and new sources of revenue that might be developed; administrative methods and procedures which now obtain in respect to each such tax and how they might be improved; present and prospective governmental expenditures of and the acquisition, management, use and disposition of properties by, each state or local governmental agency and the bearing thereof upon and relation to each and every form of tax now imposed or that might be devised and imposed; and the operation, effect, administration, enforcement, and needed revision of any and all laws in any way bearing upon or relating to the subjects of this resolution; and to report thereon to the Senate, including in the reports its recommendations for appropriate legislation.

LETTER OF TRANSMITTAL

SENATE CHAMBER, STATE CAPITOL
SACRAMENTO, June 23, 1949

Hon. Goodwin J. Knight
President of the Senate; and
Gentlemen of the Senate
Senate Chamber, Sacramento, California

MR. PRESIDENT AND GENTLEMEN OF THE SENATE:

Pursuant to Senate Resolution No. 104, as amended, adopted on June 20, 1947, and to Senate Resolution No. 20, as amended, adopted January 14, 1949, the Senate Interim Committee on Employment Stabilization was created and the following Senators were appointed members thereof:

Senator Fred H. Kraft, Chairman
Senator Arthur H. Breed, Jr.
Senator Earl D. Desmond
Senator Harry E. Drobish
Senator W. P. Rich

Your committee wishes to submit the following report. The committee believes that this report points out ways in which many of the more obvious weaknesses of our present employment stabilization system may either be corrected or improved for the time being. On the other hand, because of the limits of its appropriation, it has not been able to give more than passing recognition to certain major problems of the system.

In the opinion of your committee, this report should be considered only as a good beginning toward the more fundamental study of employment stabilization, and its relation to other social security measures, which the serious importance of this highly complex subject justifies.

Respectfully submitted,

FRED H. KRAFT, Chairman
ARTHUR H. BREED, JR.
EARL D. DESMOND
HARRY E. DROBISH
W. P. RICH

Letter of Transmittal ordered printed in the Journal and report ordered printed in the Appendix to the Journal.

MOTION TO PRINT ADDITIONAL COPIES

Senator Kraft moved that 5,000 additional copies of the report of the Senate Interim Committee on Employment Stabilization be printed for distribution.

Motion carried.

MOTION TO PRINT REPORT

Senator Tenney moved that the following final report of the Senate Fact-Finding Committee on Un-American Activities be printed in the Journal and 15,000 additional copies of the report be printed for distribution.

Motion carried.

FINAL REPORT

(Supplementing Committee's Fifth (1949) Report)

On June 8, 1949, the Senate Fact-Finding Committee on Un-American Activities released its 1949 (Fifth) Report. The report contained a section titled "Repudiations and Denials of Communism." This particular section consisted of committee statistics on the subject.

The section revealed that despite an intensive campaign of generalized abusive attacks and smears against the committee and its reports, in a decade during which the committee had published approximately 1,500 book pages of reports, only four organizations and eleven individuals ever had formally protested, refuted or repudiated factual reporting of the committee.

Two of the individuals who protested never were mentioned in the reports and three had repudiated and condemned unauthorized use of their names by Communist fronts. Three instances involved clerical errors and other complaints disputed testimony by witnesses before the committee.

Your committee reported that a large number of individuals, whose names were to be found in the indexes of the reports, had joined in unsworn statements attacking, smearing and denouncing the committee, but never had "formally protested, denied or repudiated any testimony by witnesses before this committee; or any reporting, documentation or analysis by this committee; nor had any one of them ever challenged,

denied or attempted to refute a single fact cited before this committee or by the committee."

The names of these individuals, lifted out of context by critics of the committee, was called a "1949 Tenney Red List," which it was not, as is plainly stated in the report on pages 687 to 698.

A number of individuals promptly repeated the practice of attacking the committee with vicious personal abuse and vague protests of outraged innocence. Their protests and smear attacks were widely circulated.

Your committee believes that these individuals should be given an opportunity to refute or repudiate any factual reporting by the committee. They have had the opportunity and have failed to act. The committee, therefore, has prepared for the information of the Senate and the people of California, a tabulated listing of the specific factual citations of these individuals who have circulated protests without communicating them to the committee.

The names of these individuals were listed in the 1949 Report solely as persons who had failed to make any attempt to disprove or repudiate activities and affiliations cited in former reports, and as individuals who had never formally protested to the committee.

Following is a tabulated list of specific citations of participation in Communist fronts, causes, activities, committees, organizations and campaigns by the individuals who publicly protested or denounced the mention of their names in the 1949 (Fifth) Report.

REQUEST FOR UNANIMOUS CONSENT

Senator Tenney asked for, and was granted, unanimous consent to have the following letter from the County Counsel of Los Angeles, relative to Assembly Bill No. 1819, printed in the Journal.

OFFICE OF THE COUNTY COUNSEL
LOS ANGELES 12, CALIFORNIA, June 6, 1949

Hon. Jack B. Tenney, State Senator
State Capitol, Sacramento, California

DEAR SENATOR TENNEY: We desire to call to your attention and to the attention of the Members of the Senate the present attitude of the Board of Supervisors of Los Angeles County concerning Assembly Bill No. 1819 and the formula contained in it for the disposition of fines and forfeitures collected in the municipal courts. When this bill was pending in the Assembly, several studies were made regarding the possible cost to the County of Los Angeles for the maintenance and support of the municipal courts which would be created in that county under Assembly Constitutional Amendment No. 49 and which, under the plan, are to be supported by county funds. It has been discovered that an error was made in that these studies embraced not only the 25 percent per year of the fines and forfeitures provided for in this bill but also the 24 percent per year of budgeted costs which is found in the present law and which now affects Los Angeles County. It was assumed in those studies that both formulas would apply under the reorganization plan. It has since been learned by those making the studies that one and not both of the percentages relating to fines and forfeitures is to be applicable under this proposed legislation. Hence, the figures which were obtained are not correct and are greatly in excess of the amounts that would be produced under the percentage distribution now provided by Assembly Bill 1819.

It is the position of the Board of Supervisors of Los Angeles County that it desires to go along with the Legislature in the needed inferior court reorganization plan and for that reason, the board does not, at this time, desire to take a position in opposition to these bills which augment the constitutional amendment providing for inferior court reorganization. The Board of Supervisors, however, does want the Legislature to know that it cannot approve that part of the proposed plan which provides for the distribution of the fines and forfeitures on the basis set out in Assembly Bill 1819, because the formula therein used does not and will not equitably reimburse the county for the cost which it will be required to meet in paying for the expenses of the operation and maintenance of the municipal courts to be established in the County of Los Angeles under the plan.

Inasmuch as the constitutional amendment will be submitted to the voters and if adopted will not be effective until after the 1951 Regular

Session of the Legislature, further studies will be made and it is likely that bills will be introduced at the 1951 Regular Session of the Legislature which will seek to change the formula contained in Assembly Bill 1819 so that a more equitable formula for the distribution of fines and forfeitures may be enacted into law.

Yours very truly,

HAROLD W. KENNEDY, County Counsel

GEORGE W. WAKEFIELD

REQUEST FOR UNANIMOUS CONSENT

Senator Ward asked for, and was granted, unanimous consent to have the following final report of the Senate Interim Committee on Workmen's Compensation Benefits printed in the Journal:

FINAL REPORT

CALIFORNIA LEGISLATURE, SENATE
SACRAMENTO, CALIFORNIA, June 23, 1949

To the California Senate:

This Senate Interim Committee on Workmen's Compensation Benefits, created under Senate Resolution No. 125 of the Fifty-seventh (General) Session of the Legislature filed a report on January 17th of this 1949 Regular Session.

In the report, your committee pointed out that: Section 4660 of the Labor Code provides that, subject to limitations stated therein, the commission (Industrial Accident Commission) may prepare, adopt, and from time to time amend, a schedule for the determination of the percentages of permanent disabilities; and that the rating schedule currently in use, except for infrequent minor changes, was adopted in the year 1914. Continuing on that subject, your committee reported:

"General dissatisfaction with the rating plan has long been prevalent among claimants, persons practicing before the commission, insurance carriers, and representatives of employee and employer organizations. Most complaints stem from the divergence in permanent ratings. The idea prevails that modifications made in ratings for subjective complaints as contrasted with those which are subject to anatomical of physiological demonstration renders the rating

system subject to uncertainty and inequity in its application. And there is widespread demand for simplification so that the rating schedule and rules for the use thereof will be readily understandable to persons of average intelligence without the need for special training in permanent disability rating problems.

With a special appropriation of $50,000 made available to the commission as of July 1, 1946, that agency promptly undertook to make a thorough study: (a) Of all industrial occupations and the attendant risks of injury by accident and or disablement from occupational disease; (b) of industrial injuries of all kinds and the extent of disablement caused thereby; (c) of all other problems encountered in rating permanent disabilities; and (d) of alternative plans for rating this class of disabilities.

A general recasting of the present schedule, or the adoption of some new system as an alternative plan, is a matter of serious proportions to all employees, employers, carriers and all persons or organizations interested in the Workmen's Compensation Act. In addition to assurance that a change in rating procedure will work more equitably, it is equally important that these various interests have assurance that disability ratings will be neither increased nor decreased in comparison to ratings from the present schedule except, perhaps, if inequitable awards do result from the present rating plan, the effect of the new plan will be to establish consistent ratings in the class or classes of cases where inequity in ratings presently result.

Because any plan for rating permanent disabilities is inseparably interlinked with other provisions of the Workmen's Compensation Act and with problems of operation, administration and enforcement, your committee was unanimously of the opinion that inquiry into any of these matters should be postponed until, if possibly, all matters could be considered in the light of their exact relative bearing to each other.

Early last year, the commission's program, so we were informed, called for completion of a tentative schedule or plan by or about July 1, 1948. From time to time the date for completion was moved forward until, at time of preparing this report, the committee was informed that the work of recasting the schedule and revising the rating rules was in the final stage and that completion was expected to be accomplished about January 15, 1949. In Justice to the commission and to the members of the staff of that agency who engaged in this particular work it must be noted here that recasting the schedule is a monumental task, and to those persons acquainted with the problems met in such an undertaking, inability to correctly estimate the time required to complete any particular part of the job is understandable.

However these repeated post datings by the commission necessarily caused equally frequent changes in the committee's tentative plans. Thus it is that this report contains no findings concerning the rating of permanent disabilities and no recommendations for legislative enactment upon any matters bearing upon the workmen's compensation law."

With that explanation of and for the amount of unfinished work assigned to your committee, the Senate, by Resolution No. 29 adopted January 17, 1949, continued this committee with authority to act during this session of the Legislature and with instructions to file a final report not later than the final legislative day.

Subsequent Developments

During the month of February, this year, the commission released a work bearing a note reading in part: "The following is a skeleton of the proposed revised schedule for rating permanent disabilities and includes only partial lists of the disabilities and occupations to be included in the final revised schedule."

This partial schedule, so your committee was informed, was compiled (1) to permit the commission to review the plan of the schedule prior to completion of the work, (2) to provide material for use in discussion of the revision with interested parties, and (3) to furnish the Director of Industrial Relations with a progress report which could be submitted in answer to any questions that the Legislature may ask regarding the status of the project.

The rating schedule in use under the California act is unlike the schedule adopted by any other jurisdiction. Our California workmen's compensation law provides that in determining the percentages of permanent disability, account must be taken of the nature of the physical injury or disfigurement, the occupation of the injured employee, his age at the time of injury, and consideration must be given to the diminished ability of the injured employee to compete in an open labor market. The very comprehensive and very complex currently used schedule adopted pursuant to the generalized requirements of this statutory mandate, was too voluminous for reproduction but the schedule is described in this committee's report of January 17th to the Senate (See pages 136 and 137; and appendixes, "F" and "G," pages 371 and 393). In that same report there is given a description of the rating plans of other jurisdictions (pages 137 to 141) and the schedule of each of those jurisdictions is shown in Appendix "E." (Pages 319 to 368).

From the contents of the skeleton schedule and from information imparted to your committee by representatives of the commission, the indications, among other

important considerations, are: (1) That there will be a list of approximately three hundred permanent injuries to which all injuries may be related (present schedule lists approximately 250); (2) that the number of listed occupations will be approximately twenty-five hundred (present schedule lists about 1,800); (3) that new basic ratings are to be given to some major injuries and other injuries given ratings in the proportion which the extent of these injuries bears to those major injuries; (4) that some changes will be made in the factors used in adjusting basic ratings to occupation and age variances; and (5) that, compared with the present schedule, some cases will receive lower ratings with proportionate shortening of the periods for compensation payments but a substantially greater number of cases will receive higher ratings with proportionate extensions of the payment periods and also, that these higher ratings will increase the number of cases entitled to a life pension.

Work on the parts of the schedule above referred to still is in progress; and not until that work is finished can the commission formulate a full set of rules for guidance in rating: (A) cases which are wholly ratable from the schedule; (B) cases involving multiple injuries; or (C) other cases of nonscheduled injuries.

General Observations

There is no generally accredited formula by which correctness of evaluations for listed disabilities or correctness of factors for modifying those basic disability ratings for occupation and age variances can be determined with mathematical certainty. Therefore those disability ratings and variance factors represent and the considered opinion of only the group of persons (headed by Mr. R. E. Haggard, Supervisor of the Permanent Disability Rating Bureau) assigned by the commission to draft the new schedule. This committee is aware of Mr. Haggard's extensive experience in rating permanent disabilities and of his high standing in that very specialized field of endeavor. But in the opinion of your committee it matters not by whom performed, any work of the kind, magnitude and complexity of this proposed schedule is certain to contain some basic ratings and variance factors which are inconsistent with each other. If all needed changes are to be discovered, checking and cross-checking by the authors of the work must be supplemented with checking and cross-checking by other persons who can approach the assignment objectively and with a perspective entirely unimpaired by constant, intimate, long time participation in compiling and correlating the various parts of the schedule.

Basically, the patterns of the proposed revised schedule and the schedule currently in use are so similar that to this date, there is little, if indeed anything, to encourage belief that the extent of public dissatisfaction with the current schedule will be reduced through adoption of the proposed schedule.

In addition to the desire to have full opportunity themselves to carefully study the proposed schedule in every detail, the accredited representatives of five important interested organizations expressed the desire to have the schedule subjected to comparative tests by the most practical method possible and to that end they have formally urged upon the commission that: When the schedule has been developed in sufficient detail to allow for a comparative study of its provisions in reference to the present schedule, that for a period of approximately one year every case rated under the present schedule be "test rated" under the proposed schedule so that defects and inconsistencies not disclosed by all other efforts may be brought to light and corrected. The organizations interested in the adoption of that procedure are: California State Federation of Labor; California Council, Congress of Industrial Organizations; California Inspection Rating Bureau; California State Chamber of Commerce; and California Self Insurers Association.

RECOMMENDATIONS

The committee makes the following recommendations:

(1) That because of the tremendous importance of this matter of permanent disability ratings, and because of the manifold and complex problems to be solved during the revision of the rating plan, or the preparation of some new plan, the subject should be thoroughly explored by an independent impartial official body having no hand in the administration of the workmen's compensation law.

(2) That it should be determined whether the current basic plan for rating disabilities has sufficient public approval to justify continuance of the currently used schedule in revised form or whether some alternative plan would have the greater public appeal.

(3) That if the present basic plan for rating is to be continued, it is imperative that the schedule, and rules for its use, be revised and recasted in such manner and form as will admit of the determination of accurate case ratings by persons of average intelligence instead of by the very limited number of persons who possess "knowledge of the provisions of the Labor Code and interpretations thereof; a thorough understanding of medical terminology and of the functions of the various parts of the body; a thorough knowledge of the mental and physical requirements of various occupations, and of the precedents used in rating previously determined disabilities."

(4) That regardless of the system of rating to be used, it is important for some impartial official body to ascertain to what degree the disability ratings proposed by

the commission conform to the views of all properly interested groups and persons, and also ascertain to what degree ratings by the new schedule will differ from ratings produced by the currently used schedule.

(5) That it is necessary for the rating schedule, whether it be a revision of the one now in use or a schedule of entirely different pattern, to be supported by standardized rules of procedure in obtaining and presenting medical and other evidence so that some claimants may not be unduly compensated and others short-changed because of variance in the detail or comprehensiveness of the information secured for consideration in determining disability ratings.

(6) That no new or revised permanent disability rating schedule should be officially adopted by the commission until the subject has been thoroughly explored by such a body as proposed above and its recommendations, if any, considered and passed upon by the Legislature.

(7) That the agency or body selected to explore the foregoing matters should also explore all matters related to claims of every class and pursue its inquiries and investigations to whatever extent developments indicate to be necessary or advisable.

(8) That public interest requires that the studies of the workmen's compensation laws initiated by the Senate through the instrumentality of its interim committee should be carried to conclusion.

(9) That in the light of the considerable experience and valuable background acquired by the members of this committee, it appears appropriate to recommend that the present interim committee be continued with the same personnel.

Respectfully submitted,

SENATOR CLARENCE C. WARD, Chairman
SENATOR H. E. DILLINGER
SENATOR H. R. JUDAH
SENATOR HARRY L. PARKMAN

Sec. 7.7. In the event the director determines that the necessity for housing facility, or a portion thereof, established with state aid under this act, no longer exists, he shall, provided that termination of such housing facility in whole or in part is consistent with federal law and regulations and with agreements between the local agency and the Federal Government, in writing request the local agency conducting such housing facility to terminate the same in whole or in part, as the case may be. Upon receipt of such written request, the local agency shall forthwith proceed to terminate such project in whole or in part as requested and to liquidate the same pursuant to the provisions of any applicable agreement between the director and the local agency.

Sec. 7.8. The director may make such audit of the books and records of any local agency pertaining to any housing facility established with state aid under this act, as he may deem necessary from time to time. State Capitol, Sacramento, California

Subject: Report and index of the special legislative committees and their reports, 1937-1947.

DEAR SENATOR: I am transmitting herewith the above report which I mentioned to you the other day and which I recommend that it be published.

The letter of transmittal in the report gives credit to the assistance rendered by the Bureau of Public Administration of the University of California.

When this is published it will make possible the finding of just what interim committees have done over the ten-year period, how much they have spent and what their reports cover.

I suggest that this be published in the supplement to the Senate Journal and that 1,500 separate copies be published for distribution. The University of California would like to have 200 copies and undoubtedly Members of the Legislature and future members would like to have a copy for reference. There are many public libraries that would like to have this for their research files.

(a) That such legislative or governing body shall, in addition to other matters required by law, cause to be inserted in any notice required to be given of any election to be held in connection with such proceedings a statement to the effect that if said lands be annexed to such metropolitan water district said lands will, concurrently with the effective date of such annexation, be excluded from Orange County Water District; and

(b) That upon the completion of such proceedings such legislative or governing body forthwith shall notify the board of directors of this district, in writing, of the results thereof.

(a) Make an entry in the minutes of the board that such lands have been annexed to a metropolitan water district and were, concurrently with the date such annexation became effective, excluded from Orange County Water District and such minute entry shall describe the boundaries of the district as such boundaries shall exist after the exclusion from said district of the lands so annexed to such metropolitan water district, and for that purpose the board may cause a survey to be made of such portions of the district, as the board may deem necessary; and a certified copy of such

minute entry, certified by the president and secretary of the board, shall be filed for record in the recorder's office of each county within which are situated any lands of the district; but said district, notwithstanding the exclusion of the said lands effected concurrently with such annexation to a metropolitan water district, shall be and remain a district as fully, to every intent and purpose, as it would be had no change been made in the boundaries of the district, or had the lands so excluded therefrom never constituted a portion of the district; and

Until the board of directors shall have re-established the boundaries of the divisions as provided in Section 74.6 hereof, no forfeiture of office of any director shall occur by reason of the exclusion from said district of the lands so annexed to such metropolitan water district; provided, that when the boundaries of the divisions shall have been so re-established, as provided in said Section 74.6, any director who is not then a resident of this district and an owner of land within the re-established boundaries of the division theretofore represented by him shall forfeit his office, and the vacancy shall be filled as provided in Section 12 hereof.

SEC. 15. Section 74.8 is added to the Orange County Water District Act, to read:

Sec. 74.8. SEC. 16. Section 74.9 is added to the Orange County Water District Act, to read:

Sec. 74.9. Nothing in this act provided shall, in any manner, operate to release any of the lands so excluded from the district concurrently with the annexation of such lands to a metropolitan water district, from any obligation to pay, or any lien on such excluded lands of any assessment for the payment of, any valid bonds or other indebtedness of the district outstanding at the time of such exclusion of such lands, but upon the contrary, such lands shall be held subject to said lien and answerable and chargeable for and with the payment and discharge of all of said bonds and other indebtedness of the district outstanding at the time of such exclusion of such lands, as fully as though said exclusion had never been made; and for the purpose of discharging such outstanding indebtedness, the lands so excluded shall be deemed and considered as part of the district the same as though such lands had not been so excluded from the district; and all provisions which might have been resorted to to compel the payment by such lands of their quota or portion of said outstanding indebtedness, had said exclusion never been accomplished, may, notwithstanding said exclusion, be resorted to to compel and enforce the payment on the part of such lands of their quota and portion of said outstanding indebtedness of the district for which said excluded lands are liable, as herein provided. But the lands so excluded shall not be held answerable or chargeable for any obligation or indebtedness of any nature or kind whatever, incurred after the making of the order for publication of notice of intention to exclude said lands, as provided in Section 74.3 hereof, if said lands be excluded, and such excluded lands shall not be subject to any lien of any assessment for the payment of any such obligation or indebtedness.

SEC. 17. Section 74.10 is added to the Orange County Water District Act, to read:

Sec. 74.10. If there be outstanding bonds of the district at the time of the making of the order for the publication of the notice of intention as provided in Section 74.3 hereof, the holders of any such outstanding bonds may give their assent, in writing, to the effect that they severally consent that the lands when so annexed to such metropolitan water district may be excluded from this district; and if said lands be so excluded from his district, then, notwithstanding any other provision of this act, the lands so excluded shall be released from the lien of any such outstanding bonds, the holders of which shall have so assented to the exclusion of such lands from this district. The assent must be acknowledged by the several holders of said bonds in the same manner and form as is required in case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such conveyance. The assent shall be filed with the board, and must be recorded in the minutes of the board; and said minutes, or a copy thereof, certified by the secretary of said board, shall be admissible in evidence, with the same effect as the said assent, and such certified copy thereof may be recorded in the office of the county recorder of the county wherein said lands are situated.

SEC. 18. This act is hereby declared to be an emergency measure necessary for the immediate preservation of the public peace, health, and safety within the

meaning of Section 1, Article IV of the Constitution of the State of California and as such shall take effect immediately. The facts constituting such necessity are:

Because of the subnormal rainfall during the past few years together with an ever increasing population, Orange County is faced with a critical underground water shortage which, aggravated by the consequent intrusion of salt water in certain areas of the county, jeopardizes the agricultural industry and the health, safety and welfare of the residents of the county. The immediate replenishment of the underground water supply is imperative. The Orange County Water District proposes to alleviate this condition by purchasing and importing water. The areas to be excluded from the district by or pursuant to this act, however, obtain or will obtain all or substantially all of their water from other sources; consequently, it is just and equitable that they be relieved from the burden of contributing to the cost of replenishing the underground water supply. Therefore, in order to permit the Orange County Water District to take immediate steps to alleviate the critical water shortage in Orange County and to meet the cost thereof on a fair and equitable basis, it is necessary that this act take effect immediately."

WHEREAS, The Senate of the State of California, by resolution, requested that the Wildlife Conservation Board and the Fish and Game Commission investigate all facts and matters relating to the construction of a regulatory dam at Iron Gate on the Klamath River, and render a report of such investigation to the Senate not later than June 6, 1949; and

WHEREAS, Said report was rendered as requested, but the Wildlife Conservation Board stated in its report that the time allowed was insufficient for a complete analysis; now, therefore, be it

Resolved by the Senate of the State of California, That the Wildlife Conservation Board and the Fish and Game Commission are hereby requested to continue their investigation of a dam at Iron Gate on the Klamath River, including the probable

By Senator Sutton:

Senate Resolution No. 152

Relating to a survey and the preparation of plans by the Department of Public Works for that portion of a highway connecting Glenn and Tehama Counties between Covelo via Mendocino Pass or Low Gap to Paskenta.

WHEREAS, There is or will be in the near future need for a highway to connect Glenn and Tehama Counties with Mendocino County; and

WHEREAS, Along the general route of such a highway there exist stands of virgin timber which will be cut to meet needs for lumber; and

WHEREAS, The cutting of such timber will require the construction of timber access roads; and

WHEREAS, A trunk line along the route of a proposed highway would reduce the cost of construction to the State or the counties concerned when the highway is built and would reduce the scar from the building of several roads which would otherwise be necessary thereby reducing erosion to a minimum; and

WHEREAS, The United States Public Roads Administration and the United States Forest Service have made a reconnaissance and report for a transmountain road to connect Glenn and Tehama Counties with Mendocino County and have recommended a route along a portion of the location hereafter described; now, therefore, be it

Resolved by the Senate of the State of California, That the California Highway Commission and the Department of Public Works are hereby requested to make a preliminary survey of that section of a highway to connect the above named counties between Covelo and Paskenta via Mendocino Pass or Low Gap to ascertain a possible alignment thereof that would meet the requirements of the Federal Government with respect to federal and secondary highways; and, be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the California Highway Commission, the Director of Public Works and the State Highway Engineer.

REQUEST FOR UNANIMOUS CONSENT

Senator Powers asked for, and was granted, unanimous consent to have the following report, relative to the provisions of Senate Resolution No. 101 submitted by the Committee on Rules, printed in the Journal:

REPORT OF SENATE COMMITTEE ON RULES

Organization

The report of the Committee on Rules reported herein is based upon Senate Resolution No. 101 of the current session, which directed this committee, or a committee of five Members of the Senate appointed by this committee, to investigate fully and report and recommend to the Senate concerning the following:

"1. The employment by the Senate Un-American Activities Committee of one Gibbons, publisher of that certain publication known as the Alert, including his duties, activities and compensation.

"2. The financing, publication, and distribution of that publication and particularly the May 2, 1949, issue, thereof."

The Committee on Rules elected to carry out the aforementioned assignment itself rather than delegate the matter to another committee, and in furherance of this objective, the committee engaged the services of Mr. William P. Gray, attorney of Los Angeles, as its temporary counsel and instructed him to investigate the matters under consideration, and to arrange for the examination by the committee of all persons in possession of facts pertinent thereto.

A hearing was scheduled by the committee in the State Capitol on June 17th at which the following named individuals appeared and testified:

Hon. Jack B. Tenney, California State Senator
Hon. Hugh M. Burns, California State Senator
Hon. Fred H. Kraft, California State Senator
Clarence D. Alexander, Auditor for the Committee on Rules, California State Senate
Leland B. Artz, Legislative Accounting Officer, Office of the California State Controller
Edward H. Gibbons, Publicist, Publisher of "Alert".

Employment of Edward H. Gibbons

The following facts concerning the employment of Edward H. Gibbons by the Senate Un-American Activities Committee were readily established and nowhere appear to be in dispute:

a. The Un-American Activities Committee, through its chairman, Senator Jack B. Tenney, first engaged the services of Mr. Gibbons in February, 1948, during which month he prepared and submitted an "Analysis of Communist Front Organizations," which appears in the 1948 report of the committee, from page 23 to 89 (Fourth Report, Un-American Activities in California, 1948, Communist Front Organizations). For this work Mr. Gibbons was paid $220 on warrants drawn by the State Controller based upon a claim approved by the chairman of the Un-American Activities Committee.

b. Mr. Gibbons' next employment by the Senate Un-American Activities Committee resulted from a conversation early in March, 1949, during which Senator Tenney orally invited him to come to Sacramento (from his home in Los Angeles) and under the committee's control to compile, edit, and supervise the printing of the entire 1949 report of the committee. Senator Tenney proposed that Mr. Gibbons should be paid at the rate of $150 per week, plus a ten dollar per diem, making a total of $220 per week for nine weeks. Mr. Gibbons accepted the proferred employment and started to work on March 13th in Sacramento, where he was given an office in the Capitol (Room 311).

c. The 1949 report of the Un-American Activities Committee is the result of Mr. Gibbons' work during the period of his employment beginning on March 13th. He determined the "format" of the publication; wrote much of the material and compiled and edited the balance; collaborated with representatives of the State Printing Office in the preparation of the "galley proof"; corrected the proof and made revisions therein after conferences with members of the committee; and checked and approved final proof. Mr. Gibbons was engaged in this work throughout the nine weeks' period ending May 14th and received as compensation therefor state funds in the sum of $220 per week, including per diem, for a total of $1,980. He was also reimbursed for travel and other expenses in amount of $41.93. These payments were made by the State Controller in accordance with claims approved by the chairman of the committee.

d. At the expiration of the aforementioned nine weeks' period of employment, the editorial work on the report was completed, but a substantial amount of checking remained yet to be done. Senator Tenney thereupon retained Mr. Gibbons for an additional nineteen-day period, from May 21st through June 8th, at ten dollars per day, in order that the latter might complete the final preparation of the report. On June 9th, Senator Tenney obtained the signatures of the other members of the committee (except Senator Dilworth) on a memorandum authorizing him to approve a voucher calling for payment to Mr. Gibbons of $190 to cover this last mentioned work. The claim was drawn and payment by the Controller was made accordingly.

e. Mr. Gibbons has not been employed by the Un-American Activities Committee since June 8, 1949. Thus, the total payments made to him by the State of California for services rendered the committee this year to date total $2,170.

In retaining the services of Mr. Gibbons, as discussed above, Senator Tenney acted on his own initiative and did not consult specifically with any of the other members of the committee. However, the Senate resolution under which the present Committee on Un-American Activities was organized (Senate Resolution No. 75, 1947 Session) authorizes the committee to employ assistance of the type here concerned, and the minutes of the first formal meeting of the committee, on July 12, 1947, disclose that the committee, by motion unanimously passed, delegated such authority to the chairman.

Mr. Gibbons and the Publication, "Alert"

"Alert" is a weekly four page newsletter-type publication whose announced purpose is the "exposure" of the activities of Communists and of other people whom its editors alleged to be enhancing the Communist cause. Ever since its inception in the fall of 1947 "Alert" has been published by the firm of Jacoby & Gibbons and Associates, 127 S. Broadway, Los Angeles. Testimony of Edward H. Gibbons and a certificate filed, on November 28, 1947, with the Clerk of Los Angeles County indicate that the firm is owned entirely by Mr. Gibbons and Norman I. Jacoby, as co-partners.

Mr. Gibbons testified that "Alert" is published for profit and is financed principally by its 350 to 400 subscriptions at $25 per year each. In addition, he and his partner turn into the business the fees that they receive as "counsellors" regarding subversive activity, which represents an additional income estimated at about $3,000 per year. The occasional sales of extra copies of "Alert" complete the total receipts. Mr. Gibbons stated that his paper and his partnership are not supported financially by any individuals or groups, except as subscribers at the regular price or as clients of the firm's counselling service.

According to Mr. Gibbons' testimony, both he and his partner assume responsibility for everything that is printed in "Alert," and Gibbons writes the major share of the material used. Most of the contents of most of the issues that have appeared since March 13, 1949 were written by Mr. Gibbons, and such writing was done by him while he was employed in Sacramento by the Senate Un-American Activities Committee, as hereinabove discussed. Some of this material was at least partially prepared in Mr. Gibbons' office in the Capitol. He denied, however, that he in any manner used the records of the Un-American Activities Committee in his writings for "Alert."

The financial records of Jacoby & Gibbons and Associates were examined in Los Angeles by the temporary counsel for the Committee on Rules. Those records disclosed that the normal current practice of each partner has been to draw approximately $100 per week from the business for his own purposes. From March 13, 1949, when Mr. Gibbons went to Sacramento for the Tenney Committee, until June 8th, when his work was completed, Mr. Gibbons' total personal withdrawals from the firm were limited to $446.98. Most of the checks that represented these withdrawals bore notions that they had been written to cover fixed expenses of Mr. Gibbons in Los Angeles, such as rent, car payments, home telephone bills, and the like.

During the aforementioned period of Mr. Gibbons' employment in Sacramento, he sent to his firm a total of $500 in six installments, usually

by money order, and ranging in amount from $30 to $130. Both Mr. Gibbons and Mr. Jacoby explained that the $500 so transmitted to the firm was to cover the $446.98 currently withdrawn by Gibbons and that the balance of $53.02 was credited to Mr. Gibbons' personal account which had previously been slightly overdrawn. Verification of these assertions by examination of the financial records was not readily feasible and was not attempted.

The May 2, 1949, Issue of "Alert"

Edward H. Gibbons acknowledged that he wrote the May 2d issue of "Alert," which named about one hundred people in California and asserted that they are Communists, opportunists unscrupulously ambitious politically, "cheap crooks" or "racketeers," or "befuddled dupes and dopes." Among those named were two Members of the California State Senate and several other individuals who are prominent in political affairs in this State.

When the May 2d issue first appeared, Mr. Gibbons had about one hundred extra copies sent to him in Sacramento for promotional purposes, as was his normal practice, and he delivered most of them to Senator Tenney. Senator Tenney testified that he caused a copy to be delivered to each Senator and sent the remaining copies to various Members of the Assembly. Senator Tenney added that he had not read the May 2d issue of "Alert" at the time he participated in its distribution but that he was generally familiar with the publication and thought it a good idea to bring it to the attention of his colleagues. Senator Tenney expressed general approval of the publication and confidence in Mr. Gibbons, its editor.

Relationship Between the Un-American Activities Committee and "Alert"

Pursuant to a motion passed unanimously by the Un-American Activities Committee at its meeting on August 9, 1948, the chairman ordered a subscription to "Alert" for each member of the committee and two attaches, a total of eight subscriptions at a total cost of $200 per year. The committee subscribes regularly to three other comparable periodicals for each of its members and maintains single subscriptions to several additional publications.

While Mr. Gibbons was working on the 1949 report of Senator Tenney's committee, all members thereof knew that he was so employed and were aware also that he was an owner and editor of "Alert," to which the committee was currently subscribing. Except for this fact, each member of the committee, as well as Mr. Gibbons, denies that there is, or has ever been, any connection between the committee and "Alert" or its publishers. Mr. Gibbons further stated that his paper's enthusiastic support of the Tenney committee and the loyalty oath program of legislation that is currently proposed by the committee stems solely from the fact that he is in full accord with the committee's approach to the problem of Communism.

Conclusions

Based upon the above-recited facts, the conclusions of the Committee on Rules are as follows:

1. The value, to the Un-American Activities Committee, of the services performed by Mr. Gibbons in February 1948, in contributing to the

1948 report of the committee, was at least as much as the $220 that he was paid therefor, and his employment for that purpose was not improper.

2. The value, to the Un-American Activities Committee, of the services performed by Mr. Gibbons between March 13, 1949, and June 8, 1949, in preparing the 1949 report of the committee, was at least as much as the $2,170 that Mr. Gibbons was paid therefor, and his employment for that purpose was not improper.

3. The action of the Un-American Activities Committee in subscribing to eight copies of "Alert", at $200 per year, did not constitute an improper expenditure under the circumstances.

4. The expenditures referred to in Conclusions No. 1, 2, and 3 hereof constitute the total extent to which the Un-American Activities Committee has had any relationship with the matter of the financial support of Edward H. Gibbons and his publication, "Alert."

5. In view of the foregoing conclusions, the use that Mr. Gibbons made of the money he received under the circumstances discussed in this report is not a responsibility of the Un-American Activities Committee, and further consideration thereof becomes irrelevant.

6. This committee specifically refrains from expressing any conclusion as to the proper evaluation of "Alert" and the assertions contained therein, particularly the statements appearing in the issue of May 2, 1949. Nor does this committee comment concerning the wisdom of Senator Tenney in his choice of Mr. Gibbons as the person to prepare the 1949 Report of the Un-American Activities Committee. Such considerations are believed not to fall within the scope of this investigation.

If any such corporation fails to file such statements on or before December 31, 1950, the Secretary of State shall forthwith mail written notice, postage prepaid, of the provisions of this section to the corporation. If the only address of the corporation disclosed by the records of the Secretary of State is the county in which the principal office in this State is located, then the notice may be mailed to the corporation in care of any officer, director, or agent whose address is disclosed by such records or in care of the last known attorney of record for the corporation according to the records of the Secretary of State. If the corporation then fails to file said statements within ninety (90) days after the mailing of such notice the corporation shall be presumed to have abandoned its corporate rights and privileges, including its corporate name, and the Secretary of State may remove the corporation from his active file and thereupon the name of such corporation shall become available for use by another corporation.

Similar notice shall be given by the Secretary of State following the end of each calendar year subsequent to 1950 to each such corporation which fails to file said statements during the preceding year except that no notice need be given to a corporation as to which the presumption of abandonment already exists. Failure to file within ninety (90) days after such notice shall create the presumption of abandonment thereinabove provided for.

The presumption of abandonment shall not affect corporate existence nor adversely affect the rights of third persons.

Any such presumption of abandonment may be overcome and the corporation restored to the active files of the Secretary of State by the filing of the statements required by this section, except that if, during the period of presumed abandonment, another corporation has adopted the same name or any name so similar as to tend to deceive, then the corporation may not file said statements and be restored to the active files until it has amended its articles of incorporation to adopt a new available name.

No fee shall be charged or collected for the filing of any statement of the names of officers or of the location and address of the principal office of a corporation pursuant to this section."

"SEC. 29. Notwithstanding Section 3720 of the Political Code, the Sonoma County Flood Control and Water Conservation District is validly created for the purposes of assessment and taxation. The creation of any zone in the district shall not be effective for purposes of assessment or taxation for the Fiscal Year 1949-1950 and shall not be effective for such purposes for any fiscal year thereafter unless the statement and map or plat required by Section 3720 of the Political Code are filed with the county assessor and the State Board of Equalization on or before the first of February of the year in which the assessments or taxes are to be levied. Until such time as the creation of any zone shall be effective for purposes of assessment or taxation, any tax or assessment levied by the board shall be levied at a uniform rate on all property in the district.

For the Fiscal Year 1949-1950, but for no other fiscal year, notwithstanding Section 28 of this act, the assessment and equalization of property for the purpose of district taxation shall be effected as provided in this section.

Assessments of the district for the Fiscal Year 1949-1950 are liens on the property the same as if they were county taxes, except that the district assessment liens attach as of noon on the day after this act becomes effective.

It is presumed that the assessments of property made by the county assessor and by the State Board of Equalization for county taxation purposes for the Fiscal Year 1949-1950 are the correct assessments for purposes of assessment by the district and the rolls prepared by the county assessor and the State Board of Equalization shall be used for purposes of levying and collecting the assessments for the district. If the ownership or taxable situs or value of any property changes between noon on the first Monday in March, 1949, and the date on which attaches the lien for assessments of the district for the Fiscal Year 1949-1950, then, on petition of the taxpayer

affected to the assessing authority, suitable entry shall be made on the assessment roll, in the manner prescribed by the State Board of Equalization, to indicate such change in the ownership or taxability or value of the property for purposes of assessment by the district.

In equalizing the assessments made by the county assessor, the Board of Supervisors of Sonoma County, sitting as the county board of equalization, in addition to its regular equalization duties, shall also, in the same manner and under the same rules, equalize the valuation of property for purposes of assessment by the district in accordance with the requirements of this section and any such changes made by the county board of equalization in the assessment roll shall be entered in the manner prescribed by the State Board of Equalization.

If, for purposes of assessments by the district, a change in the assessment for county taxation purposes is not sought under this section before the end of the period during which such assessment may be equalized, or corrected on a petition for reassessment, such assessment, if valid for county taxation purposes, is conclusively presumed to be the correct assessment for assessment purposes of the district.

The board may prescribe by ordinance any necessary procedure, in accordance with the policy of this act, for the purpose of assessing, equalizing, levying, and collecting taxes or assessments for the district for the Fiscal Year 1949-1950. Except as provided in this section, Section 28 of this act is applicable to the assessment and equalization of property for the purpose of district assessments for the Fiscal Year 1949-1950."

Amendment No. 4

On page 2 of said bill, after line 52, insert

"SEC. 4. Section 19601 of said code is amended to read:

19601. *The purpose of the Legislature in enacting this chapter in 1943 was to provide for the wartime emergency conditions which necessitated the employment of many mothers as a result of the 24-hour operation of wartime industries necessary for the successful outcome of World War II.*

It is hereby declared by the Legislature in enacting amendments to this chapter at the 1949 Session that such wartime emergency is rapidly disappearing so that the state support for child care centers will no longer be necessary after June 30, 1950, and that while in some communities there is still a need for child care centers, such need is a matter of local rather than state interest and therefore should be supported by the local school districts after June 30, 1950.

[The policy of the Legislature in enacting this chapter is to provide for the care of children of needy parents and other children in need of care and supervision during usual working hours and who would not otherwise receive such care because of the financial inability of the supporting parent.] As used in this chapter "parent" includes any person having legal custody of a child.

SEC. 5. Section 19613.5 of said code is amended to read:

19613.5. No state funds shall be expended for the operation of child care centers *after June 30, 1950. The unencumbered balance of any appropriation for child care centers shall revert to the General Fund July 1, 1950.* [until all available federal funds, including federal funds appropriated or which may be appropriated prior to March 1, 1946, have been expended.

No state funds shall be expended for the operation of child care centers except funds appropriated therefor from the General Fund of the State.]

SEC. 6. Section 19613.6 is added to said code to read:

19613.6. Pursuant to Chapter 10 of Division 3, the governing board of any school district maintaining a child care center may include in its budget the amount necessary to carry out its child care center program pursuant to this chapter and the board of supervisors shall levy a school district tax necessary to raise such amount.

The tax shall be in addition to any other school district tax authorized by law to be levied.

SEC. 7. The sum of six million dollars ($6,000,000) is hereby appropriated out of the General Fund to the Department of Education to be expended for the administration and support of child care centers during the 1949-1950 Fiscal Year. The department shall apportion the money directly to school districts and to the governing authorities of state institutions maintaining child care centers pursuant to Chapter 11, Division 9 of the Education Code upon the basis of demonstrated need."

Amendment No. 5

On page 3, line 9, of said bill, strike out "SEC. 4.", and insert "SEC. 8."

Amendments read, and adopted.

Bill ordered printed, and set for special order of business for Tuesday, June 28, 1949, at 2 p.m.

LETTER OF TRANSMITTAL

To the Members of the Legislature
State of California
1949 Regular Session

Your Joint Committee of the Senate and Assembly, created pursuant to Senate Concurrent Resolution No. 60, Chapter 194, Statutes of 1947, herewith submits its final report for the period of March 23, 1948, to June 25, 1949.

A preliminary report filed March 22, 1948, covered meetings from August 11, 1947, to January 7, 1948, and included studies of statutory powers and duties of state agencies and officers dealing with water resources; legal interpretations of those duties by the Attorney General and the Legislative Counsel; and testimony relating to overlapping or conflicting powers or duties.

In relation to findings included in the 1948 Preliminary Report, your committee concluded that in order to consolidate the statutory provisions found in each of the many divisions of the Water Code, and other general statutes, it would be necessary to employ a code expert or designate a subcommittee to carry on this work. It was found there were fewer statutes that conflicted with each other, and overlapping of duties between the various departments than had been anticipated.

The 1949 Final Report includes the following:

1—Reports, written statements, oral testimony, financial and legal opinions on the feasibility of the State of California recovering the Central Valley Project from control by the Federal Government.

2—Records of the committee in its studies of proposed Bureau of Reclamation contracts, under which Central Valley Project water is to be supplied irrigation districts.

3—Oral and written testimony and reports and analysis of the California Districts Securities Commission, Legislative Counsel and the Bureau of Reclamation on the proposed contracts.

4—Records of committee studies of flood control problems on the Sacramento and San Joaquin Rivers.

5—Records of testimony bearing upon water problems of the Kings River, American River, Feather River, Upper Sacramento River Valley, San Diego area, Sierra Valley, South Coastal Basin, Metropolitan Water District, the Imperial Valley and other areas.

The above provisions are not all-inclusive. There is much miscellaneous testimony and many exhibits covering a wide field of water problems throughout the State.

All transcripts and exhibits upon which this report is based, are on file in the office of the committee, and can be referred to by any interested parties.

Your committee appreciates the service rendered by Mr. Fred B. Wood, Legislative Counsel, through Mr. George N. Murphy, Deputy Legislative Counsel, Mrs. Elizabeth Spaulding, executive secretary of the committee, who has performed exceptional service, and Mr. Jack Cartwright, who has assisted your committee in the preparation of its report.

There are many requests for your committee to conduct studies and investigations into the water problems of mountain areas, the San Francisco Bay area and contingent counties and the coastal counties of California.

It is the belief and hope of your committee that this final report will provide a basis for beneficial action on many of the water problems presently confronting the people of California.

Respectfully submitted,

SENATOR BRADFORD S. CRITTENDEN, *Chairman*
ASSEMBLYMAN GEORGE R. BUTTERS, *Vice Chairman*

MOTION TO PRINT REPORT

Senator Parkman moved that the following report of the Senate Interim Committee on Horse Racing be printed in the Journal and 500 additional copies printed for distribution.

Motion carried.

REPORT OF THE SENATE INTERIM COMMITTEE ON HORSE RACING OF THE STATE OF CALIFORNIA

Members of the Committee

Senators

Hugh M. Burns, Chairman
W. F. Knox
Thomas J. Kuchel
Thomas J. Mitchell
Ralph L. Swing

Pursuant to Senate Resolution 128 1947 your committee was authorized to ascertain, study and analyze all facts and matters relating to or in any way appertaining to horse racing, horse race meetings and the operation thereof particularly

including but not limited to facts and circumstances surrounding or connected with the leasing or sale of premises for the conduct of horse race meetings, the issuance of licenses and the amendments of the rules and regulations of the board, or any other matters relative to the subject of horse racing.

Horse racing and pari-mutuel betting in California was authorized at a special election on June 27, 1933, and has been conducted every season under the pari-mutuel form of wagering by major racing tracks as well as county fairs. One of the purposes of legalizing racing was for the encouragement of agriculture and the breeding of horses in the State of California; to provide fees, commissions and moneys for the support of the Fairs and Expositions Fund, California State Fair, and other support for fruit, citrus fruit fairs and expositions, as well as providing funds for animal husbandry.

Since the original passage of the act, many amendments have been made to the act, which have used some of the funds for other purposes such as fish and wildlife, and partial support of state colleges. California is now recognized as one of the outstanding states for the breeding of thoroughbred horses as well as standard bred horses, in the Nation. Racing has been administered by a racing board consisting of three members appointed by the Governor without the usual Senate confirmation. There have been many changes since this law took effect in 1933, and the present board is composed of Mr. Loyd Wright, Chairman, Mr. Dwight Murphy and Mr. Nion Tucker. These men have been administering the law and making rules and regulations governing racing. Racing in California is being conducted upon a high standard and has furnished a good clean sport to the general public with great profits in the form of commissions to the State of California. It was suggested in 1933 that if the racing act was adopted that the State would realize two million dollars biannually. The amount of revenue has far exceeded the prediction made by those who sponsored racing. During the last year past, racing has brought to the State of California in the form of license fees and revenue, approximately twenty-one million dollars. In fact, California has produced as much revenue from racing as any state in the Nation by reasons of the high standard of racing, quality of sportsmanship prevailing in all major tracks. Your committee finds, notwithstanding any rules and regulations, that the managements of all major race tracks have endeavored to conduct the sport of racing in a highly efficient manner, so as to bring credit to the State of California.

Your committee held its first meeting in Los Angeles, by reason of a complaint having been filed with the committee by a Mr. Richard Perkins, who claimed that through irregularities, the Santa Fe Railroad had entered into a lease of the property known as Golden Gate Fields, or the Albany Race Track, with one Frank Clark, a railroad commissioner. The said claimant appeared before your committee in Los Angeles, and stated that he had likewise filed a complaint before the California Utilities Commission of the State of California, setting forth the same facts as set forth in the complaint before your committee. After hearing testimony of Mr. Perkins, your committee decided that the jurisdiction of said complaint lay within the jurisdiction of the California Utilities Commission and that the complaint of Mr. Perkins should be continued until such time as a hearing had been had and a determination made by the California Utilities Commission. Your committee received a report and transcript of the California Utilities Commission, setting forth that they had reached a determination that no violation of any law by the Santa Fe Railroad or Mr. Clark, a former member of the Railroad Commission, had been committed, and the leasing of the premises by the railroad to Mr. Frank Clark was a proper function, and therefore dismissed the complaint of Richard Perkins. Your committee, receiving said determination and judgment of the California Utilities Commission, which had a complete hearing upon the matter, likewise dismissed the complaint of Mr. Perkins on the further ground that he had not stated that there were any irregularities by the California Horse Racing Board in issuing a license to Albany Race Track, known as Golden Gate Fields.

Your committee had brought before it the question of creating an additional commission to regulate the conduct and operation of harness race meetings or what is commonly called standard bred horses. Testimony was offered by Mr. Smith, that in some states there were separate racing commissions which dealt exclusively with harness or standard bred racing. However, your committee was informed by every operator or manager of standard bred or harness racers, as well as a Mr. Walter Found, a breeder of standard bred horses, that there was no need at this time for a separate commission to regulate and control the conduct of harness racing meetings in the State of California. That the present Racing Board could do and was doing everything possible to encourage and foster harness racing in the State of California. The president of the Western Harness Association and the Pacific Coast Trotting Association, the only two trotting associations holding trotting races in California, both testified that they are opposed at this time to the creation of a new commission to regulate and control trotting races. Your committee, therefore, recommends that no new commission be created at this time for the purpose of regulating the conduct and operation of major trotting racing associations in the State of California, and the trotting racing department as well as the operation and management of the tracks be left to the regulation of the present Racing Commission.

Your committee likewise met in Los Angeles a second time and had before it certain witnesses, to wit: Mr. King, the controller of Santa Anita, as well as Mr. McKenzie, the general manager of Hollywood Park, and others representing other racing associations who appeared before your committee for the purpose of discussing with the committee the question of additional revenue to the State of California. Mr. King testified that the present take by the State, of license fees for racing, was exceedingly high and that with a decrease in business, the high class and standard of racing could not be continued, if the State was to take any further increase in license fees from Santa Anita or the Los Angeles Turf Club. The question of taxes, personal and real property, as well as operating expenses, was gone into in a lengthy discussion, as well as the discussion of audits by the Department of Finance. Mr. McKenzie, representing Hollywood Park, testified that it was his belief that there would be a decrease in the wagering in the State, and that the license fee now charged was sufficiently high enough not to justify any further increase at this time. Your committee believes and is aware of the fact that the Legislature has now before it many bills dealing with this subject matter, and has before it information which should decide the question of whether or not an increase should be made at this time on major racing in the State of California, and therefore makes no recommendation, believing it primarily a legislative matter.

Your committee was advised, that through the rules and regulations of the Racing Board, many innovations have been foisted upon racing associations which have cost the associations tremendous money; such as filming of the entire race by motion picture cameras and the maintenance of a boarding house at the cost of the racing associations to take charge and care of the minors who are under contract to the owners of race horses as apprentices. There are many other charges that are borne by major racing assocations which have cost them considerable money, by reason of the rules and regulations created by the Horse Racing Board. Each license to a racing association requires that the racing association meet the requirements of all rules and regulations of the Racing Board and unless they do, their license is subject to revocation by the Racing Board.

The administration of the act by various racing boards has demonstrated that the power of the Racing Board should not be continued or broadened, but should be restricted to control those employed to conduct racing, as well as the power to supervise and control owners, trainers, bookies, etc. The management of the race tracks should be the exclusive right of the associations, subject to the power of the board in the event of any violation of the racing law or of any rules and regulations, to revoke or suspend their license after a hearing. The Racing Board now exercises arbitrary power to fix dates and to limit the number of racing days in any particular county or district. These days may be fixed, the time of operation set, irrespective of the wishes of track owners either individually or collectively. The board may even fix the number of days that racing may be conducted at any track; this it can do, irrespective of the successful operation of racing at any particular track. It can be readily seen that the board possesses the powers to penalize some and favor others.

Racing is now well established. If we are to stabilize racing, the operators of major tracks should know the number of days which they may expect to receive and the seasons in which they may operate, so that each track could with security, plan for its future meets and not be dependent upon the next meeting of the Racing Board to determine the number of days it will be granted, as well as to what season it will be permitted to race. Racing in California should be placed upon a sound basis, giving the management some right to determine what it thinks is best in the community in which it conducts racing, so long as it lives up to the rules and regulations of the Racing Board.

The Racing Board believes that under the power delegated to it by the State, it has the power to fix purses, regulate admission, regulate the employment of people and practically operate and conduct racing meetings, leaving very little to the management. Racing in California is now big business. Its benefits to agriculture and breeders have developed so that today, California can be classified as one of the largest breeding states in the Nation of both thoroughbreds and harness racing horses. Millions of dollars have been expended in California in the purchase of breeding farms, and the employment of labor maintaing these breeding farms has become one of California's chief sources of revenue.

We believe that the members of the Racing Board should be men of experience, having knowledge and training in racing itself, and that they should devote as much time as possible to such a major industry as racing is in California.

Representatives of major racing associations appeared before your committee and explained that notwithstanding the fact that the present law provided that any city could charge not exceeding $100 per day as a license fee under the state statute, that some cities have imposed an admission tax of 5¢ on each ticket sold or pass issued. In one city they are collecting 10¢ on each ticket sold or pass issued. Your committee was advised that it was the belief of the racing association that this tax was discriminatory, as no other amusement in the city paid this tax and that it was not within the function of the city to charge in excess of $100 a day as license fee, as fixed by the statute. Your committee has asked the Legislative Counsel for an opinion on this question and has not yet been advised as to whether or not the cities are within their rights to charge an admission tax upon admission to race tracks and

not upon other amusement admissions in the same city. Your committee was advised that all racing associations paid the same taxes both personal and real property taxes, and are paying extra money for the support of policing their organizations, and in some instances, maintain an emergency fire department and pay for the upkeep of equipment and men. We believe that no extraordinary tax should be placed upon these tracks by the city if they do not add any additional burden upon the cities and counties, but on the contrary, produce revenue. Most of the tracks have paid this additional tax without complaint although they believe it as being illegally collected.

Your committee has been informed that the Racing Board has been preparing amendments to their rules and regulations governing the conduct of racing in California. There are more than approximately three hundred rules that have been issued by the Racing Board, and as yet they have not adopted any amendments to the rules, although they have been discussed for more than two years. Many of these rules have to do with the actual operation of a race track, and are contrary to the powers specifically delegated to the Racing Board. These rules and regulations should be carefully considered by all those who are bound by them, because they take the effect of law and can result in the revocation and suspension of a business worth many millions of dollars.

Your committee recommends, therefore, that the Senate, through its members, propose that the Senate Interim Committee on Horse Racing be continued, and that they carefully study and analyze all the rules and regulations dealing with the conduct of racing associations, as well as state fairs. We recommend that this committee be empowered to go into the question of equal allocation of racing days as well as racing seasons, so that all tracks be treated alike.

We further recommend that the committee consider the question of permitting night harness racing in the State of California for the period of seventy days, which is now allotted to harness racing in the State of California.

We believe that with the proper rules and regulations and with management managing its own tracks, that racing can endure and prosper in California and become a prosperous and permanent industry.

Respectfully submitted,

SENATOR H. L. PARKMAN, Chairman
SENATOR W. P. RICH
SENATOR HAROLD J. POWERS
SENATOR GEORGE J. HATFIELD

I can not give full approval to the foregoing report because I believe some of the questions require further study. I do approve a continuance of the committee for that purpose.

SENATOR RALPH E. SWING

State Capitol, Sacramento, California

ASSEMBLY BILL 444

DEAR MR. BUTTERS: This is in reply to your letter of June 9, 1949, asking for the department's interpretation of Assembly Bill 444 as amended in the Assembly May 26, 1949.

You asked in particular whether the department's ruling would be affected by the period of time during which a piece of hay baling equipment is used on the owner's farm and on other farms. If hay baling equipment used on other farms is also used on the owner-operator's farm, the operation would be within the term "agricultural labor," even though for one or more pay periods or one or more calendar quarters the equipment might be used exclusively on the owner operator's farm and during other pay periods or other calendar quarters on other farms.

There could possibly be a situation where the farmer used hay baling equipment on both his own farm and on farms of others for one or more seasons and then at some future time discontinued any hay baling operations on his own farm and used the hay baling equipment exclusively on other farms. In such a situation the operator would probably be considered to have become a "commercial" hay baler and no longer operating within the application of the term "agricultural labor."

Very truly yours,

T. H. MUGFORD, Deputy Director

MOTION TO PRINT COMMUNICATION

Senator Keating moved that the following communication from Richard Carpenter, Legal Counsel of the League of California Cities, be printed in the Journal.

Motion carried.

LEAGUE OF CALIFORNIA CITIES
SACRAMENTO, CALIFORNIA, June 24, 1949

To the Senate of the State of California
Senate Chamber, State Capitol
Sacramento 14, California

The County Counsel of Los Angeles County has filed in the Senate Journal of June 23d a letter expressing the opposition of the county to the provisions of Assembly Bill 1819 because of the purported inequity of the bill with respect to that county. While expressing the county's willingness to go along with the legislation at this time, notice of intention is given by Los Angeles County to return in 1951 and obtain from the Legislature an equitable distribution.

The 45 cities within Los Angeles County cannot and do not subscribe to any such purported inequity. On the contrary, they point out that property within cities as well as property within the unincorporated area is taxed to support the county court system and distribution of fines and forfeitures is in general, on the basis of which governmental agency employs the arresting officer.

The League of California Cities did not oppose the court reorganization program because it recognized the generally admitted need for improvement of the administration of justice in California's inferior courts. This was true even though cities, under the program, make by far the greatest and perhaps the only sacrifice in that they give up their city courts.

The cities, too, desire to make it known to the Senate and the Assembly that all parties affected by the court reorganization plan intend to re-examine the bills between the end of this session of the Legislature and the commencement of the next session and present to the general session in 1951 facts to support a fair distribution of fines and forfeitures; a distribution that takes into consideration all of the costs involved in the administration of justice and all of the taxpayers.

RICHARD CARPENTER, Legal Counsel

MOTION TO RE-REFER BILLS TO FINANCE COMMITTEE

Senate Resolution No. 158

Relating to the expenditure of appropriations to provide housing for students at the University of California and at the state colleges

WHEREAS, By the enactment of Chapter 147 of the Statutes of the 1946 First Extra Session, the Legislature made an appropriation for construction, improvements, and equipment needed by the University of California which appropriation was intended to provide funds for student housing for students of the university at its several campuses and units; and

Resolved by the Senate of the State of California, That the State Public Works Board is requested and directed to consider this problem and to determine with the Regents of the University of California and the Director of Education and the Director of Finance as to what extent the expenditure of these appropriations for student housing should be matched by funds from other sources; and be it further

WHEREAS, The inspection, recommendation and advice of the Joint Interim Committee on Agriculture and Livestock Problems resulting from its activity in 1948 and 1949 has resulted in a more orderly and economic development of agricultural activities at the several state institutions and schools; and

WHEREAS, The procedure of having the said joint committee inspect and review such expenditures has met with general approval of all concerned; be it, therefore

Resolved, That no money be spent which is appropriated by the Budget Act of 1949 or previously appropriated for capital outlay providing for plans, specifications, construction or purchase of any facility which is used for agricultural purposes until such facility, equipment or item to be provided thereby is reviewed and inspected by the Joint Interim Committee on Agriculture and Livestock Problems and they have filed a report thereon with the Director of Finance of the State of California.

The question being: Shall the Senate concur in the following Assembly amendments to Senate Bill No. 850?

Amendment No. 1

On page 1 of the printed bill, as amended in the Senate on June 20, 1949, strike out line 6, and insert

"5041. The Legislature hereby declares that it is in the interest of the State and of the people thereof for the State to aid school districts of the State in providing

necessary and adequate school sites and buildings for the pupils of the Public School System, such system being a matter of general concern inasmuch as the education of the children of the State is an obligation and function of the State.

In adopting this act, the Legislature considers that the great need in school construction is for adequate classrooms for the education of the pupils of the Public School System. It is the intent of the Legislature to first satisfy this primary need to the greatest extent possible before providing additional educational facilities, regardless of how desirable such additional facilities may be. To the end that school classrooms may be made available at once and to all school districts in need of such classrooms, provision for other needed school facilities is necessarily subordinated.

5042. As used in this chapter:

(a) "Board" means the State Allocation Board, created by Section 7 of the Construction and Employment Act as amended.

(b) "Director" means the Director of Education.

(c) "Project" means the purposes for which a school district has applied for an apportionment under this chapter.

(d) "Grade level maintained by a district" means (1) the kindergarten, if any, and grades 1 to 6, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district; or (2) grades 7 to 12, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district; and (3) grades 13 and 14 maintained by a high school district, unified school district, or junior college district, but not more than one grade level shall be claimed by any district under any one of the subdivisions of this paragraph.

(e) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

5043. The Director of Finance shall administer this chapter and shall provide such assistance to the board as it may require.

5044. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board in an advisory capacity shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the Public School Building Loan Fund.

5045. In addition to such other powers and duties as are granted the board by this chapter, the board shall (1) establish such qualifications not in conflict with other provisions of this chapter as it deems will best serve the purposes of this chapter for determining the eligibility of school districts to apportionments of funds under this chapter; (2) establish such procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter as it deems necessary and which are not in conflict with the powers and duties of the Department of Education or of the director granted or imposed by this chapter; and (3) adopt such rules and regulations for the administration of this chapter, requiring such procedure, forms, and information, as it may deem necessary.

5046. Apportionments from the Public School Building Loan Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for the following purposes: (a) the purchase and improvement of school sites which have been approved by the State Department of Education; (b) the purchase of built-in or fixed equipment, except desks, as listed in Part III of the California School Accounting Manual contained in the Bulletin of the California State Department of Education, Volume XIII, No. 2, June 1944 or as amended or revised; and (c) the planning and construction, reconstruction, alteration of, and addition to, school buildings for such facilities as are approved by the Department of Education as essential, all of which purposes are hereby declared to be, and are, public works.

5047. In making application for, and in expending, apportionments of funds under this chapter, a school district acts as an agent of the State and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the State. Upon the payment by the district of the amounts required to be paid by it to the State under this chapter, the board shall, in the name of the State, convey such property to the district.

5047.5. A school district shall not expend money apportioned under this chapter unless the contracts under which the funds are expended have been let after competitive bids thereafter pursuant to this code.

5048. Each school district which desires an apportionment for a grade level maintained by it, shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire project for which the district desires an apportionment. Estimates of cost for new construction appearing in an application shall not exceed typical current costs of comparable new construction by school districts in the same area not receiving or not eligible for apportionment under this chapter, as determined by the Director of

Finance, or if there has been no new construction by school districts in the area, the estimates of cost shall not exceed the reasonable current cost of similar construction in the area as determined by the Director of Finance. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the director and to the Director of Finance.

A school district may at any time amend or supplement its application.

The Director of Finance shall determine the school district's financial ability to meet all or a portion of the cost of the project and the amount which the school district can contribute toward the cost of the project out of its available funds, and shall submit his report thereon to the board.

The director shall as promptly as possible prepare a report and recommendation with respect to the application and refer the application, report, and recommendation to the Director of Finance, who shall, if he finds said documents to be in proper form and otherwise sufficient, refer them to the board. If the Director of Finance finds said documents to be lacking in any respect as to any matter which is subject to the jurisdiction or approval of the director or Department of Education, he shall refer them to the director who shall take such action as may be necessary. The board shall, subject to the provisions of this chapter approve or reject each application referred to it by the Director of Finance. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the Public School Building Loan Fund the amount applied for, or such portion thereof as the board may deem appropriate. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 5050 is favorable and if bonds are authorized and sold in the amounts prescribed by the board, and the proceeds of the bonds sold earmarked for the project as approved. The conditional apportionment shall remain effective for a period of nine months from the date of said resolution of the board, and if it does not become a final apportionment by that date, it shall become void and the money so apportioned shall become again available for apportionment pursuant to this chapter.

5049. No apportionment shall be made for new construction which when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per pupil of the estimated enrollment in excess of that computed under the following schedule:

Type of school	*Enrollment*	*Sq. ft. per pupil*
Elementary school comprising kindergarten and grades 1 to 6, inclusive	300 or more	55
Elementary school comprising grades 7 and 8	750 or more	75
Junior high school comprising grades 7 to 9, inclusive	750 or more	75
Junior high school comprising grades 7 to 10, inclusive	750 or more	75
High school comprising grades 7 to 12, inclusive	750 or more	80
High school comprising grades 9 to 12, inclusive	750 or more	80
High school comprising grades 10 to 12, inclusive	750 or more	80
Junior college comprising grades 13 and 14	750 or more	80
Junior college comprising grades 11 to 14, inclusive	750 or more	80

The maximum total building areas per pupil allowed to applicants having schools with smaller estimated enrollments than shown in the above schedule shall be determined by the Department of Education, and shall be building areas to provide comparable facilities to those enumerated above, and shall be the least building area required to house adequately the estimated enrollment and the normal instructional and other services.

No estimate of enrollment made by an applicant for the purpose of justifying an apportionment shall be made for a longer time than the second fiscal year beyond the fiscal year in which an application is made, and in no case shall be given effect unless approved by the Department of Education.

5050. No apportionment to a school district shall become final unless: (a) the total amount of bonds of the district exceeds ninety-five percent (95%) of the total amount of the bonds of the district permitted by the Education Code, or any law, to be issued, or (b) if the total amount of the bonds of the district outstanding and unpaid is less than ninety-five percent (95%) of the amount of the bonds permitted to be issued by the district, the amount of district bonds outstanding is within ten thousand dollars ($10,000) of the total bond limit permitted. At the time the board makes a conditional apportionment pursuant to Section 5048, it shall determine the amount of bonds required to be issued and sold by the district, the proceeds of which shall be applied to the cost of the project for which the apportionment is sought, and shall make such apportionment conditioned upon the approval and sale of such bonds by the district.

No apportionment to a school district shall become final unless, at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board of the district to accept, expend, and repay, as provided in this chapter, an apportionment under the provisions

of this chapter. Such election shall be combined with and held at the same time as the bond election to authorize the amount of bonds required by the board, if any, and shall be called, held, and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot, in addition to the bond proposition, shall contain substantially the following words:

"Shall the governing board of the _____ school district be authorized to accept and expend an apportionment in an amount not to exceed $_____ from the State of California under and subject to the provisions of Chapter 1.6 of Division 3 of the Education Code which amount is subject to repayment as provided by said chapter? Yes_____ No_____."

5050.1. Immediately after the result of the election has been determined, the county superintendent of schools shall make a certificate in duplicate stating whether the bonds have been authorized in the amount prescribed by the board and whether the school district has authorized the acceptance and expenditure of the apportionment. One copy of the certificate shall be sent to the board and one copy to the State Controller. When the bonds authorized have been issued and sold and the proceeds thereof made available for the purposes of the application, the county superintendent of schools shall also certify this fact to the board and the State Controller. Upon the receipt by the board of the certificate stating that the bonds have been issued and sold and the proceeds thereof made available for the purposes of the application, the apportionment shall become final.

5051. No apportionment shall be made to a school district for any grade level if the estimated cost of the project, as approved by the Director of Finance, is (1) an amount which would result in an apportionment to the district exceeding the amount authorized at the district election held under Section 5050, or (2) is an amount which if raised by the issuance and sale of bonds of the district running for 25 years bearing the current going rate of interest as determined by the board and the principal of which is payable in 25 equal annual payments, would require the levy of a tax under Section 7516 upon property in the district which would, when added to the tax actually being levied upon property in the district for the grade level as determined by the Director of Finance under said section, amount to less than thirty cents ($0.30) on each one hundred dollars ($100) of assessed valuation of property in the district during the next fiscal year.

At the time the board makes an apportionment, it shall, with the approval of the Director of Finance fix the interest to be paid by the district on the sum apportioned to it at a rate equal to the effective rate paid by the State upon the bonds sold from the proceeds of which the apportionment is made, giving effect to the price at which the bonds are sold and the premium, if any, paid thereon, adjusted to the next highest one-eighth of 1 percent, to cover the costs of sale and issuance of the bonds and costs of administration, to be compounded annually on the first day of January of each year.

5052. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment or for any project or part thereof which has not been approved by the Department of Education.

5053. Each district to which an apportionment has been made under this chapter shall repay the principal amount of such apportionment and the accrued interest thereon in the amount and in the manner hereinafter provided in this chapter.

5054. On or before the first day of January of each fiscal year, the State Controller shall compute for each grade level of a district for which an apportionment has been made during any preceding fiscal year the amount that would be produced by a tax of thirty cents ($0.30) on each one hundred dollars ($100) of assessed valuation for the current fiscal year within the district. Such amount is designated as the "first computation."

5055. On or before the first day of December preceding the first day of January of each fiscal year, the Director of Finance shall determine and certify to the State Controller the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the bondsd indebtedness of the district that was incurred for each such grade level prior to the making of the apportionment referred to in Section 5054, which amount is designated as the "second computation." The Director of Finance shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level.

5056. On or before the first day of December preceding the first day of January of each fiscal year, the Director of Finance shall determine and certify to the State Controller for each grade level the amount that was or will be produced by the rate of tax levied under Section 7516 of this code, but not exceeding the first ten cents ($0.10) thereof, that is required to pay during the current fiscal year the principal and interest on that portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the making of the apportionment referred to in Section 5054, which amount is designated as the "third computation."

5057. On or before the first day of January of each fiscal year, the State Controller shall compute the "annual" repayment, if any, due from each district during the next succeeding fiscal year as herein provided. If, for any grade level of a district, the amount, if any, by which the second computation exceeds the third computation is greater than the first computation, the amount of such excess, herein called a "negative difference," shall be disregarded, and no reimbursement shall be due the State from such district with respect to such grade level during the next succeeding fiscal year. If, for any grade level of a district, the amount of the first computation is greater than the amount, if any, by which the second computation exceeds the third computation, the amount of such excess, herein called a "positive difference," shall constitute the amount of reimbursement due the State from such district with respect to such grade level during the next succeeding fiscal year. The sum of the "positive differences" so computed for all grade levels having a "positive difference" within each district is herein designated as the "annual repayment" of such district.

5058. The State Controller shall, during the next fiscal year following that in which he determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each installment of the apportionments made to such district from the State School Fund under Chapter 15 of this division; and, on order of the State Controller, the amount so deducted shall be transferred to the State General Fund.

5059. The State Controller shall make the deduction provided by Section 5058 during each fiscal year, as herein provided, until the principal amount of the apportionment made to the district for such grade level, and all accrued interest due thereon, has been withheld; but no interest shall accrue or become due and payable to the State with respect to the principal amount of any such apportionment after the expiration of 25 years from the first day of January of the fiscal year next succeeding the date of the warrant issued by the State Controller covering the payment to the county treasurer of the original amount of such apportionment. At the expiration of 30 years from the first day of January of the fiscal year next succeeding the date of the warrant issued by the State Controller covering the payment to the county treasurer of the original amount of such apportionment, any unpaid balance of the principal amount of any such apportionment, including all interest included in such principal amount, shall be canceled on the books of the State Controller, and the State shall have no further right to the repayment of such unpaid balance.

5060. The State Controller shall certify to the board the cancellation of the unpaid balance of the principal amount of such apportionment; and upon receipt of such certification, the board shall, in the name of the State, convey to the district all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to, from moneys provided by the apportionment covered by such cancellation.

5061. The State Controller shall determine and maintain a record of the amount due the State in connection with each apportionment made to each grade level of a district under the provisions of this chapter. He shall compute interest on the original amount of the apportionment at the rate fixed by the board, from the date of issuance of the State Controller's warrant covering the payment to the county treasurer of the original amount of the apportionment until the first day of January of the fiscal year next succeeding that in which the warrant was issued. Thereafter, interest shall accrue to and be compounded as a part of the principal amount due the State pursuant to such apportionment, on the first day of the following January of each year, until the principal and interest have been paid, or until the interest ceases to accrue, as provided in this chapter. No interest shall accrue on the principal amount of any apportionment because of the withholding of the annual repayment from apportionments made to school districts from the State School Fund on dates subsequent to the first day of January of the year in which the computation of the annual repayment is determined.

5062. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the succeeding fiscal year, the State Controller shall notify the governing board of the district of the amount to be deducted.

5063. The maximum tax rate fixed by Section 6357 or authorized by Section 6358 for any district which under this chapter will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year is hereby increased, for such fiscal year, by such amount as will produce an amount equal to that to be deducted by the State Controller during the fiscal year from apportionments made to the district from the State School Fund.

5064. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it to a school district under this chapter may be expended and such prescription shall be binding upon the governing board of such district except as it may be, for good cause, modified by the board.

5065. Unless the board has received the certificates of the county superintendent of schools required by Section 5050.1 within nine months from the date of the conditional apportionment, it shall, at the expiration of said nine months' period, void said conditional apportionment and shall certify this fact to the State Controller. Each

final apportionment made by the board under this chapter shall be certified by it to the State Controller who shall thereupon draw his warrant on the State Treasurer in favor of the county treasurer of the county having jurisdiction over the district. The warrant shall be exempt from the provisions of Division 4 of Title 2 of the Government Code and shall be paid by the State Treasurer from the Public School Building Loan Fund.

5066. A public school building fund is hereby created in the county treasury in each county for each school district in such county. The county treasurer of each county shall pay into the public school building fund of each school district, exactly as apportioned by the board, all moneys received by him under this chapter with respect to each such school district.

5067. A fund in the State Treasury is hereby created, to be known as the Public School Building Loan Fund. All money in the Public School Building Loan Fund, including any money deposited in said fund from any source whatsoever after the effective date of this chapter, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

5068. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the Public School Building Fund of the school district exactly as apportioned by the board and only for the purposes for which said moneys were apportioned to the district, and for no other purpose, and shall make such reports relating to the expenditure of such moneys as the board and the State Controller shall require.

5069. A complete detailed report of expenditure of funds allocated pursuant to this chapter shall be made by the board annually to the Legislature. The report shall contain a detailed statement of facilities provided, type of construction, square footage provided and all other items which will enable the Legislature fully to understand the nature of the construction performed by the school districts.

5070. It shall be the duty of the State Controller to make such audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes and under the conditions authorized by this chapter.

5071. Whenever the State Controller determines that any money apportioned to a school district has been expended by such school district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by this chapter to be paid therefrom, the State Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury, at the time of the next county settlement following receipt of such notice, the amount of such unauthorized expenditures, or the amount of such excess apportionment, as the case may be. Upon receipt of such notice, such governing board shall, at the time specified herein, order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the Public School Building Loan Fund.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

5072. An apportionment paid to a school district under this chapter shall be available for expenditure by its governing board for three years after the date on which the warrant covering the apportionment was issued by the State Controller. For the purposes of this chapter, an apportionment shall be deemed to be expended at the time and to the extent that the amount thereof on deposit in the county treasury has been encumbered by the creation of a valid obligation on the part of the school district. Upon the expiration of its period of availability, the unencumbered balance of any apportionment made under this chapter shall become due and payable to the State of California; and the governing board of the school district and the county treasurer shall, at the time of the next county settlement following the expiration of such period of availability, pay the amount of such unencumbered balance to the State Treasurer, out of the funds, and in the manner specified in Section 5071 of this code. Such payment shall, on order of the State Controller, be deposited in the Public School Building Loan Fund in the State Treasury.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

5073. Whenever a school district receives an apportionment under this chapter for the purchase or improvement of a school building site and within a period of three years after the date on which the warrant covering the apportionment was drawn on the State Treasurer from the Public School Building Loan Fund, sells or otherwise disposes of such site or the improvements thereon, or any portion thereof, purchased

or improved in whole or in part from such apportionment, or within said period of three years does not begin to use such site or the improvements thereon for the purpose or purposes for which such apportionment was made, the board shall demand the return by the school district of the total amount apportioned to and received by the school district for such purpose or purposes or, in the case of a sale of a portion of such site or the improvements thereon, a proportionate share of such apportionment, taking into consideration any improvement of the site from such apportionment. Written notice of such demand, setting forth the amount due the State pursuant thereto, shall be furnished by the board to the governing board of the school district, the county superintendent of schools, the county auditor, the county treasurer of the county whose county has jurisdiction over the school district, and the State Controller. Upon receipt of such notice and demand, the governing board of the school district shall, at the time of the next county settlement following receipt of such notice, order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the Public School Building Loan Fund.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

There are hundreds of impoverished school districts in California that do not have the financial means to provide either suitable buildings or adequate instruction. Many of these districts and other districts have had tremendous population increases as well as a disproportionate increase in the number of children of kindergarten and grammar school age. The children living in those districts are being denied their birthright of a good education. There must be equalization of educational opportunities by helping the poorer districts to render more adequate service to the children upon whom the future of the State depends. They are our future citizens, and it is clearly our duty to give them every opportunity to become useful and happy people. The need is great, and the State is under a direct obligation.

In order that the benefits arising from this measure may inure to the children of the State at the earliest possible time, it is necessary that this act take effect immediately."

STATE OF CALIFORNIA, DEPARTMENT OF CORRECTIONS
SACRAMENTO, June 30, 1949

The Honorable Earl Warren
Governor of California

The Honorable Goodwin J. Knight
President of the Senate

The Honorable Sam L. Collins
Speaker of the Assembly

I have the honor to transmit herewith the attached communication addressed to the State Board of Corrections under date of June 29, 1949, by Gerald H. Hagar, Acting Chairman, the Special Crime Study Commission on Organized Crime.

Mr. Hagar sets forth the reasons why the commission is not prepared at this time to submit to the Governor and the Legislature a report on the status of the studies initiated since the submission of its Second Progress Report on March 7, 1949.

Respectfully yours,

RICHARD A. McGEE, Chairman
State Board of Corrections

SPECIAL CRIME STUDY COMMISSION ON ORGANIZED CRIME
June 29, 1949

State Board of Corrections
State Office Building No. 1
Sacramento 14, California

Attn: Honorable Richard A. McGee, Chairman

GENTLEMEN: On March 7, 1949 the Commission for the Study of Organized Crime submitted its Second Progress Report which presented the commission's investigation of the bookmaking racket and of the slot machine racket in California.

Special studies initiated since March 7, 1949 have not progressed to the point where the commission can issue a report at this time. To do so would jeopardize the current inquiries and successful completion of our studies.

As soon as practical, a report on current inquiries will be submitted by the commission.

Respectfully yours,

GERALD H. HAGAR, Acting Chairman
Commission for the Study of Organized Crime

RESOLUTIONS

The following resolution was offered:

By Senators Dilworth, Donnelly, Weybret, Williams, and Jespersen:

Senate Resolution No. 163

Relating to the creation of a Senate Investigating Committee on Education

Resolved by the Senate of the State of California, That

1. The Senate Investigating Committee on Education is hereby created and authorized and directed to investigate, ascertain, study and analyze all facts relating to the education of the citizens of this State, and to the schools, colleges and universities, public or private, engaged therein, including but not limited to the Public School System, the University of California and its several branches (including the relation thereof to the Public School System and the training thereat of personnel to teach in the public schools), the educational practices in the State, the State Department of Education, the State Board of Education, the Superintendent of Public Instruction, the State Curriculum Commission, all organizations of educators and public school employees and the effect of such organizations on the Public School System, and particularly (without limitation by reason of specification thereof) all matters pertaining to textbooks, the causes and effects of teacher shortages, the recruitment, curricula, program, training and accreditation of teachers, teacher tenure and retirement, the issuance of credentials with particular reference to present methods of certification, caliber of teachers certified, the automatic certification of state college graduates, the utilization of all types of public school facilities for school or other purposes, the teaching of foreign languages and the institutions engaged therein, and the necessity for and adequacy of living and housing accommodations for students, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all provisions of the statutory law or of the State Constitution in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Senate, including in the reports its recommendations for appropriate legislation, both by way of proposed statutes and proposed amendments to the Constitution.

Explanation of Vote Against Assembly Joint Resolution No. 45

The resolution as presented commends the Regents of the University of California for requiring a loyalty oath, the form of which has been materially changed since the resolution was passed by the Assembly. The regents and members of the faculty are now discussing further the whole question of loyalty oaths.

The regents decided last March to require a loyalty oath from faculty members and employees. At that time the Legislature was considering a whole program of loyalty oaths for attorneys, candidates for office, public employees, national defense plant employees, labor unions. Since that time the Legislature has rejected this whole program.

Assembly Joint Resolution 45 now proposes to require a loyalty oath from one group, University of California faculty members and employees when no such oath is required of the other groups mentioned. This is discriminatory, unfair and a slur upon thousands of loyal and patriotic Americans.

We voted against Assembly Joint Resolution 45 and for the amendments offered by Senator Drobish (above) for the reasons set forth and for these further reasons:

1. If there are Communists on the faculty of the University of California, they should be discharged immediately.

2. The loyalty oath commended in Assembly Joint Resolution 45 will accomplish little or nothing in the all-important battle against Communism, but

will be mistaken by some of the regents as a mandate to continue and insist upon the loyalty oath which is now required but which otherwise might be abandoned.

CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF SENATE BILLS (OUT OF ORDER)

Senate Resolution No. 158

Relating to the expenditure of appropriations to provide housing for students at the University of California and at the state colleges

WHEREAS, By the enactment of Chapter 147 of the Statutes of the 1946 First Extra Session, the Legislature made an appropriation for construction, improvements, and equipment needed by the University of California which appropriation was intended to provide funds for student housing for students of the university at its several campuses and units; and

WHEREAS, By the enactment of Chapter 155 of the Statutes of the 1946 First Extra Session, the Legislature made an appropriation for the acquisition of sites and for the construction, furnishing, and equipment of student housing on the campuses of the state colleges; and

WHEREAS, While there is no express limitation contained in either chapter it was contemplated at the time they were enacted that the funds made available for student housing would be matched either from the sale of revenue bonds or from other sources; and

WHEREAS, It now appears that requiring of such matching funds in the construction of student housing may necessitate the fixing of rental charges for occupancy by students at rates which are beyond the reasonable ability of students to pay; now, therefore, be it

Resolved by the Senate of the State of California, That the State Public Works Board is requested and directed to consider this problem and to determine, with the Regents of the University of California, the Director of Education, and the Director of Finance, what extent the expenditure of these appropriations for student housing should be matched by funds from other sources; and be it further

Resolved, That the Secretary of the Senate be directed to send a copy of this resolution to the State Public Works Board.

REQUEST FOR UNANIMOUS CONSENT

Senator Rich asked for, and was granted, unanimous consent to have the following opinion of the Legislative Counsel relating to Tax Validating Bill printed in the Journal:

OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 28, 1949

Whether or not the Introduction and Failure of Passage of a Tax Validating Bill may be Interpreted as a Finding by the Legislature that the Tax Levies or Rates sought to be Validated are void, excessive, or otherwise Ineffective in whole or in part.—No. 6463.

Question: **If a bill is introduced in the Legislature to validate taxes or rates theretofore levied or fixed and the bill fails of passage without any specific reason therefor appearing in the record, do those facts furnish a basis for concluding that the Legislature thereby has found and declared those tax levies or rates void or otherwise ineffective?**

More specifically, in relation to the State Franchise Tax, assume that an administrative practice has been followed in fixing the rate each year, and a legislative bill is introduced, but fails of passage, to validate those acts of the administrator by validating the tax rates which he determined and fixed during certain tax years. Would these facts furnish a basis for concluding that the Legislature has thereby found and declared that such administrative practice was not in conformity with law and that the tax rate fixed by the administrator in each of the years in question was void, excessive, or legally ineffective as to certain of the taxpayers?

More specifically, consider Senate Bill 1458 of 1949, as amended May 20, 1949, and as again amended June 3, 1949, and assume that this bill remains in the Senate Committee on Revenue and Taxation the remainder of the 1949 session without further action. Would these facts furnish a basis for concluding that the Legislature had found and determined that any or all of the franchise tax rates mentioned in Section 4b of this bill were void, excessive, or otherwise ineffective in whole or in part?

In my opinion, no such inference of a Legislative finding or determination would be warranted, nor, in my opinion, would any such inference be drawn.

To draw such an inference would be tantamount to predicating a formal finding and determination (in which, normally, both Houses, in passing a bill, and the Governor, in approving it, would join, to make it effective) upon mere inaction of one or both Houses and the Governor, or of the Governor if the bill reached him and received a pocket veto.

Nor would it be a logical inference to draw. When considering a validating bill, the Legislature does not normally have before it all the facts concerning the steps taken or the procedure observed which led up to and culminated in the tax levied, the rate fixed, the cities or districts organized, the territory annexed, or the bonds issued, which the bill would declare valid or effective to the extent that it is competent for the Legislature to cure.

Take, for example, the general validating act which has been enacted each session, commencing in 1939, using by way of illustration the Validating Act of 1948 (Stats. 1948, Ch. 35, p. 146). It declared that each county, city, and public district of any kind or class (designated "public bodies") theretofore organized or existing under, or under color of, any law was "legally organized" and "legally functioning" (Sec. 2). It confirmed the boundaries of every such public body (Sec. 3). It confirmed bonds theretofore authorized by such public bodies (Sec. 5), and proceedings theretofore taken for the annexation of territory to each (Sec. 6).

It further declared that such validation was limited to the correction of "errors in carrying out statutory provisions which the Legislature originally could have omitted from the law under which such acts or proceedings were taken, provided that this act shall also operate to supply such legislative authorization as may be necessary to validate any such proceedings heretofore taken which the Legislature could have supplied or provided for in the law under which such acts or proceedings were taken," to the extent the Legislature might do so under the state and federal constitutions, but not validating any act or proceeding then in litigation (Sec. 8).

It is inconceivable that the Legislature thereby undertook to declare that but for the Validating Act of 1948 any particular "act or proceeding" was irregular in this, that or the other particular, and therefore invalid or ineffective in whole or in part. Nor would the failure to pass that act in 1948 have been tantamount to such a declaration. All that the Legislature and the Governor undertook to do, in passing and approving the Validating Act of 1948, was to cure those ministerial errors which

may have occurred, *if any did occur*, in the formation of "public bodies," the description of their boundaries, the authorization of their bonds, and the enlargement of their territories. The failure to have passed that act would have indicated, at most, a decision not to cure such ministerial errors as may have occurred; not a decision that any ministerial errors had occurred.

Take another example, the property tax Validating Act of 1947 (Stats. 1947, Ch. 605, p. 1615). It presents essentially the same picture.

It dealt with property taxes theretofore levied by the State, any county, any city, or any public district, including any city or district for which county officers assessed and collected taxes.

It confirmed, validated and declared legally effective "every act and proceeding" theretofore taken by any such agency relative to the preparation, transmitting, computing, determining or fixing budgets, tax rates, assessment or equalization of property, levy of taxes, tax sales, and tax deeds (Sec. 3), limited to the type of errors described in Section 8 of the Validating Act of 1948, but not expressly excluding acts or proceedings then under scrutiny in pending litigation (Sec. 4).

There would seem to be no conceivable basis for inferring that the passage and approval of the property tax Validating Act of 1947 was a finding that any of the acts or proceedings which culminated in any budget, tax levy, rate, assessment or equalization of property, certificate of sale, or tax deed which the statute sought to validate were in any respect irregular or legally ineffective. Nor would the failure to pass that act, after its introduction as a legislative bill, have furnished any basis whatsoever for an inference that the Legislature had thereby made such a finding.

The same reasoning applies to the introduction and nopassage of Senate Bill 1458 of 1949, which purported to validate certain franchise tax rates and proceedings.

Senate Bill 1458, as amended May 20, 1949, in terms confirmed, ratified, validated and declared legally effective the state franchise tax rate for each of certain taxable years (1933 to 1948, inclusive, designating the rate for each year) "heretofore determined by the Franchise Tax Commissioner in pursuance of Section 4a of the Bank and Corporation Franchise Tax Act," but not extending to any portion of the rate of tax, in any such year, in excess of that permitted by the Constitution or laws of the United States or the Constitution of this State. The bill contained no clause excepting from its validating effect any administrative act, proceeding or determination, or tax rate, that might be under challenge in pending litigation.

The June 3, 1949, amendment deleted the words "in pursuance of Section 4a of the Bank and Corporation Franchise Tax Act," thus making clear an intent to validate, to the extent permissible, even though, upon occasion, the commissioner in making his determination may have deviated from the procedure prescribed by the statute.

I see no basis for inferring from the passage or nonpassage of this bill a legislative finding that any of the tax rates mentioned are void, excessive, or otherwise ineffective in whole or in part, or that any of the acts or proceedings of the commissioner in making his determinations were irregular or in any way legally ineffective. As concerns nonpassage, one member might simply perfer not to disturb the status quo by doing any validating; another might be indisposed to act, believing the tax proceedings regular and the rates legally effective; another might be opposed because of the failure to except tax rates now under judicial scrutiny; another might not be for the bill because of the enlargement of its scope by the June 3d amendment; another might hesitate to support it because of a possible inequality of operation as between state and national banks; others may not have had brought to their attention the purpose or effect of the bill. Nonpassage of such a measure would seem to furnish no basis whatsoever for a legislative finding and determination that some, or any, of the tax rates involved are legally ineffective in whole or in part.

Added emphasis is given this view when we stop to consider the fact that the decision as to the regularity or irregularity of the acts and proceedings of an administrative official in fixing a tax rate, and the legal effectiveness of the rate itself, is peculiarly and exclusively judicial, not legislative, in character. It is a decision to be made by a court of competent jurisdiction in an appropriate action between interested, adversary parties. There can be no inference of an attempt upon the part of the Legislature to usurp this function when it passes or fails to pass a tax validating act.

The only California decision that has come to my attention with the suggestion that a different conclusion might be indicated, is *Rosemary Properties, Inc.* v. *McColgan* (1947), 29 Cal. (2d) 677.

That case involved the interpretation of the provisions of subdivision (h) of Section 8 of the Bank and Corporation Franchise Tax Act. The court analyzed those provisions and arrived at an interpretation, following which it directed attention to the fact that in 1943 the district court of appeal arrived at the same conclusion. The court then observed that a consideration of the legislative history of the section under consideration "lends additional force" to the interpretation it had made, tracing that history from 1929 through 1945.

In the course of that discussion, the court noted that the Legislature had held three sessions subsequent to the district court of appeal decision without making any significant change in the provisions of subsection 8, which that court had construed; indeed, in 1945, the Legislature amended the very section in question "without the slightest change in the language construed" in 1943. This readoption, said the Supreme

Court "amounts to ratification of the court's construction thereof" (29 Cal. (2d) 687), invoking "the cardinal principle of statutory construction" that

> "Where legislation is framed in the language of an earlier enactment or an analogous subject, which has been judicially construed, there is a very strong presumption of intent to adopt the construction as well as the language of the prior enactment" (29 Cal. (2d) 687).

That principle (as normally applied, and as applied in the California and California Appellate decisions cited in support of the statement here quoted) has peculiar reference to a new enactment which borrows words or clauses from an earlier statute of the same or a different jurisdiction, one that has been judicially construed. In such a case there is a reasonable presumption of legislative intent to use those words as thus construed. The 1945 amendment of Section 8 differed in this: It was a long section, changes were made in portions of it but no change was made in subdivision (h). As concerns subdivision (h), the clause that had been judicially construed, it was not a new enactment. Where a section of a statute is amended, "the portions which are not altered are to be considered as having been the law from the time when they were enacted, and the new provisions are to be considered as having been enacted at the time of the amendment" (Government Code, Section 9605).

In a sense, therefore, the 1945 amendment of Section 8 represented nonaction as concerns the judicially construed text of subdivision (h). It would seem difficult to draw from such nonaction an inference of a legislative intent to adopt the judicial construction of subdivision (h).

But the court in the *Rosemary Properties* case did not base its inference of such a legislative intent solely upon legislative nonaction.

The very bill, Assembly Bill No. 912, which became Chapter 946 of the Statutes of 1945, amending said Section 8, did, as first passed by the Assembly, amended subdivision (h) by inserting therein a clause which explicitly gave that subdivision a meaning the opposite of that given it by the district court of appeal. The Senate amended that clause out, causing subdivision (h) to remain in the bill without change (Senate Journal, 1945, page 2635), the only amendment which the Senate made in the bill. Upon the return of this measure to the House of origin, the Assembly concurred in that amendment (Assembly Journal, 1945, page 3693). Thus, both Houses expressly rejected the proposed change in subdivision (h) and amended Section 8 without making any change in that subdivision.

Another bill of the same session, Assembly Bill No. 913, amending the comparable section of the Corporation Income Tax Act, had exactly the same history. Exactly the same clause was amended out (Senate Journal 1945, page 2635), in which deletion the Assembly concurred (Assembly Journal, 1945, page 3693). That bill became Chapter 859 of the Statutes of 1945. "Such *action* of the Legislature," said the court, "forcefully demonstrates that it appreciated that a substantial change in the wording of Section 8(h) would be required to effect a different basis for allowance of the dividend deduction as previously provided and construed; and that it decided to adhere to the premise of the Green Investment Company case in the construction of said section" (29 Cal. (2d) 688).

That was an inference of a legislative intent based upon *action*, not upon nonaction, of both Houses of the Legislature; re-enactment, without change, of the judicially construed subsection, after deletion, by both Houses, of the very language that would have written the 1943 judicial construction out of the subsection.

That inference received further support from the fact that a third bill of 1945, Assembly Bill 911, again amended Section 8 of the Franchise Tax Act and had the same history as Assembly Bill 912. As first passed in the Assembly, subsection 8(h) contained the same new clause as did Assembly Bill 912. That clause was deleted by the Senate (Senate Journal, 1945, page 3330), a deletion concurred in by the Assembly (Assembly Journal, 1945, page 3932). The bill became Chapter 962 of the Statutes of 1945, without effecting any change in the text of subsection (h).

It is difficult to derive from the *Rosemary Properties* decision any precedent for the inference of a legislative finding predicated upon legislative nonaction, such as the mere introduction of a bill which dies in committee, does not even come to a vote in the House of origin. What the court did in the *Rosemary* case was simply that of tracing the history of a statute during its course of passage, using the changes made in it while still in bill form as an aid to interpretation of the final product, much as was done in the earlier case of *In re Haines* (1925), 195 Cal. 605, 615-621. The court, in the *Rosemary* case, found that that history supported the interpretation it had already made of subsection 8(h).

Such a tracing of the history of a statute in its inchoate form, as a legislative bill in course of passage, as an aid to interpretation of the final product, furnishes no sanction for using the mere introduction and nonpassage of a tax validating bill as a basis for concluding that the Legislature thereby found certain administrative proceedings irregular and certain tax rates void or excessive, issues which the courts, not the Legislature, have the legal competency to decide.

5645.32. Upon receipt of such petition, the board of supervisors shall set the same for hearing on a day not less than twenty days nor more than thirty-five days thereafter. The clerk of the board of supervisors shall cause a notice of the hearing, which shall contain a description of the property to be excluded, to be published once prior to the date fixed for such hearing, in a newspaper of general circulation circulated within the district and within the area proposed to be withdrawn which the board deems most likely to give notice to the inhabitants thereof.

5645.33. The board of directors of the county sanitation district in which the area proposed to be excluded is situated shall report in writing to the board of supervisors at the time set for the public hearing as to the extent of the district, indebtedness, present obligations, and the effect of such exclusion upon the operation of its sewage system.

5645.34. At the time designated, the board of supervisors shall hear the petition and any person interested and may adjourn the hearing from time to time not to exceed sixty days. The board of supervisors, if it finds that the portion of the district sought to be withdrawn will not be benefited by remaining in the district, and that the territory not sought to be withdrawn will be benefited by continuing as a district, may upon the conclusion of final hearing upon said petition, grant such withdrawal, describing the area withdrawn, from the district; and subject to Sections 54900 to 54903, inclusive, of the Government Code said portion thereafter is no longer a portion of the district for any purpose, except that in the event district indebtedness or district expense is outstanding and owing on the date of the order granting said exclusion, the property within any territory so excluded from the district shall nevertheless remain liable for assessment and payment of the tax for its pro rata share thereof until the extinguishment of said indebtedness or expense."

Senate Resolution No. 145

Relative to a Senate Committee on State and Local Taxation to make inquiry into every phase of taxation, creating the committee and defining its powers and duties

WHEREAS, The economy of the State of California has during the recent years gone through a revolutionary change, so that industry has assumed an increased importance in relation to agriculture, mining, and commerce; and

WHEREAS, This change has resulted in bringing into the State industries and properties of large value which have not previously been considered in our tax structure, and has created new governmental problems; and

WHEREAS, The increased population incident to this change in our economy has also created new governmental problems and made new demands upon both local and state governments; and

WHEREAS, The unprecedented growth of motor transportation and the change-over to the use of diesel fuel in motor transportation during the war period, together with the added population of our State and the concentration in industrial centers, has materially changed the requirements for the support of highways, streets, and bridges; and

WHEREAS, It appears that there may be large sums in the way of federal subsidies granted both to the state and local governments which will directly affect the revenue structure and will require careful examination to coordinate the disposition of these subsidies equitably into the entire revenue program of both state and local governments; and

WHEREAS, From the beginning of the State's history, the ad valorem tax has been and still is the fiscal mainstay of local government and has not been adjusted to meet the new conditions; and

WHEREAS, The administration of taxation by the State and by the local governments has not been modernized, in fact has not been materially changed to bring it into line with present or prospective needs; and

WHEREAS, The relative burden of our several taxes on the different classes of taxpayers and different classes of property has not been fully determined; and

WHEREAS, There are new classes of property and rights that have grown up in the State that are not subject to taxation; and

WHEREAS, The acquisition, holding and exchange of land in this State by the United States of America has many aspects and involves varied and varying relationships, including the bearing and effect thereof upon taxes levied or leviable by the State and by local governmental units within the State; and

WHEREAS, Neither the State nor local governments have available to their legislative bodies information concerning all the varied phases of this problem adequate to legislative consideration and action in the endeavor to find and effect a solution; and

WHEREAS, For many years the burdens of government have been increasing both for the State and local governments, including many fixed charges not controllable by administrative bodies but brought about in answer to the demand of the people expressed in continuing legislation or in constitutional requirements, it is imperative that an appraisal be made so that revenues may be made adequate to meet the demands of government, both local and state, and the burdens of taxation may be equitably distributed upon and among the several classes or property and of taxpayers; now, therefore, be it

"SECTION 1. Section 13.6 is added to the Construction and Employment Act, to read:

Sec. 13.6. In addition to other allocations to counties, any county may apply for an allocation pursuant to this act for the repair, restoration, and repair and restoration, of county roads or portions of county roads where such roads or portions thereof have been damaged or destroyed by freezing or snow, or both, subsequent to October 30, 1948.

The Legislature hereby finds and declares that there is a state interest in such projects.

The Legislature further finds and declares that, because of economic dislocations caused by the extremely severe winter of 1948-49, widespread unemployment exists in the mountain areas served by roads which have been damaged or destroyed by freezing or snow, and any project otherwise qualifying under the provisions of this section will contribute to the prevention and alleviation of unemployment.

All the provisions of this act shall be applicable to allocations made under this section, except where such provisions are by their nature inapplicable and provided that all such allocations shall be made on the basis of need and importance of the respective projects, as determined by the board, with priority being given to the projects of greatest need and greatest importance.

The provisions of this act relating to the allocation of funds among counties in specified portions are specifically found and declared to be inapplicable to allocations made under this section. Not more than 20 percent of money appropriated by this act shall be expended in any one county.

Allocations under this section shall be made only from money appropriated specifically for allocations pursuant to this section and shall be in addition to all other allocations to counties provided for in this act. The State's share as made available by this act of the cost of such repair or restoration, or repair and restoration, shall not exceed one-half of the cost of completion. In the event that work on the construction of any such project has been commenced prior to making of application for an allocation under this section the State shall credit towards the county's share of the cost all amounts heretofore expended and also all amounts obligated for expenditure by the county but not yet expended.

SEC. 2. The sum of five hundred thousand dollars ($500,000) is hereby appropriated out of unappropriated money in the Postwar Unemployment and Construction Fund to be expended without regard to fiscal years for allocations made pursuant to Section 13.6 of the Construction and Employment Act.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

During the extremely cold winter of 1948-49 much of the roads in the mountain areas of the State were seriously damaged or destroyed by excessive freezing or snow. The damage occasioned was unprecedented in the history of the State. At present these roads are in such condition that travel over them is dangerous, difficult, and in some cases impossible. The county governments charged with the responsibility of maintaining these roads are without sufficient funds to make necessary repairs and restoration. The economic life of these areas has been brought to a standstill and the maintenance of public peace, health and safety has been seriously impaired. In order to remedy such conditions it is necessary that this act take effect immediately."

Amendment No. 5

On page 1, strike out lines 2 to 23, inclusive, and strike out page 2.

Consideration of Assembly Amendments

Senate Bill No. 831—An act to amend Section 1 of an act entitled "An act to provide for the expansion of publicly supported higher education and to repeal an act entitled 'An act establishing a four-year institution of higher education in the City of Sacramento, County of Sacramento,' approved July 1, 1947 (Chapter 1017 of the Statutes of 1947), and an act entitled 'An act making an appropriation for the establishment, equipment and maintenance of a four-year state institution of higher education at Sacramento,' approved July 10, 1947 (Chapter 1349 of the Statutes of 1947), all relating to the system of publicly supported higher education," approved by Governor May 25, 1949, relating to the Sacramento State College, declaring the urgency thereof, to take effect immediately.

The question being: Shall the Senate concur in the following Assembly amendments to Senate Bill No. 831?

Amendment No. 2

On page 1 of said bill, after line 9, insert

"SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to care for the many students of the Sacramento and outlying areas who desire to enroll in the Sacramento State College, a site for the new college should be acquired and improved at the earliest possible time.

There is a great need for increased facilities for publicly supported higher education which must be met to insure the welfare of the State and the needs of the people.

An urgency has existed and now exists in publicly supported higher education. This urgency exists by reason of the following facts: The tremendous increase in population in recent years will continue to make overwhelming demands upon the existing facilities for higher education; practically all of the publicly supported institutions of higher education of the State are greatly overcrowded and compelled to resort to unsatisfactory devices in order to care for the students who are seeking admission; large concentrations of students upon single campuses with inadequate facilities would result in the lowering of the quality of education service.

As so positively stated by Section 1 of Article IX of the Constitution of this State, a general diffusion of knowledge and intelligence is essential to the preservation of the rights and liberties of the people. The enactment of this act at the earliest possible moment, is necessary if there is to be in the future, as there has been in the past, that

diffusion of knowledge and intelligence essential to the rights and liberties of the people, and it is therefore necessary that this act take effect immediately."

REPORT OF THE SENATE INTERIM COMMITTEE ON GOVERNMENTAL REORGANIZATION CREATED PURSUANT TO SENATE RESOLUTION NO. 137; 1947 REGULAR SESSION

The above named committee is the successor to a similarly named committee created at the 1945 Session of the Legislature, upon whose recommendation the Legislature enacted legislation providing for the reorganization of the Motor Vehicle Department and in particular providing for the separation of the California Highway Patrol from that department and its formation into a separate department, and providing for the mechanization of the motor vehicle registration process.

The present committee considered itself at the beginning a "stand-by" committee that would follow up the investigations of the former committee relating to the Motor Vehicle Department, with a particular view to recommending any needed legislation to revise that enacted at the 1947 Session accomplishing the above mentioned results, if revision proved to be necessary. The committee agreed also that under the broad powers given it by the Senate under Resolution 137, it would, while not voluntarily entering into any extensive program, nevertheless look into any matters involving state governmental organization that might be called to its attention, particularly by members of the Senate.

With that viewpoint in mind, the committee, at its first meeting held on November 18, 1947, at which time the committee was organized and its purposes roughly agreed upon, interviewed at some length Mr. Clifford Peterson, Commissioner of the Highway Patrol, who had then been in office but a short time. Mr. Peterson reviewed the activities to that date in the accomplishment of the separation of the patrol from the Motor Vehicle Department, and in addition told the committee of plans for training schools for new members of the patrol as well as for in-service training. He advised the committee fully on the progress to date in the addition of new members as provided for in the budget of that year.

The committee offered its services and assistance to the commissioner in any way he might believe it possible to use them, and in particular requested that he make any recommendations to it that he felt necessary for revision of the statutes hereinabove mentioned as having been enacted at the previous session of the Legislature. No recommendations from the Department of the Highway Patrol have been given to the committee in that respect, and it has therefore made no recommendations to the Legislature or sponsored, as such, any legislation on the subject.

At a meeting held on December 8, 1947, also at the State Capitol, pursuant to considerable demand that had reached the committee, a hearing was held on the question of the manner of carrying out by the State Personnel Board of an appropriation for a general salary increase for state employees that had been given and made at the 1947 Session. Present were Mr. Robert D. Gray, President of the State Personnel Board; Mr. John F. Fisher, Executive Officer of the Board; Mr. Kelvin D. Sharp, Chief of the Pay Division, and Mr. James H. Phillips, Counsel for the State Employees Association. The matter of a pay scale fixed by the board pursuant to the legislation mentioned was gone into at length and explained by the various witnesses to the satisfaction of the committee, with the result that committee approval was tacitly given and no recommendations were therefore made by the committee to the Legislature in this respect.

During the following spring, commencing with April 3, 1948, in view of the fundamental importance to State Government of a reapportionment of the State Senate under the terms of a constitutional amendment proposed to be placed on the ballot at the following general election, the committee held several meetings to discuss what contributions it might make to a legislative determination of the question whether or not the Legislature should itself at some future session submit to the voters any proposition involving in any way reapportionment of the Legislature.

At the first meeting on this subject, it was determined that regardless of the outcome of the voting on any proposition that might be submitted to the electors at

the next general election, and whether or not any such proposition be submitted, the committee should gather all possible reliable information as to the views of the voters on the subject as early as possible and prior to any impact upon the voting public of any campaign that might be made for or against reapportionment or for or against any such ballot proposition that might be submitted.

It was the view of the committee that such information would be valuable to the Legislature in determining whether or not the Legislature itself should initiate any action in this direction. With this in mind, the firm of Knight and Parker, Inc., of Sunset, 6550 Sunset Boulevard, Hollywood, California, was retained to make a public opinion survey on the subject. In consequence it was necessary to hold the meetings last hereinabove mentioned, with Mr. John B. Knight, president of that firm present, in order that he might submit for approval of the committee his initially proposed questionnaire, and later the results of his "pilot" surveys made in order to determine the fairness and effectiveness of the questions proposed to be asked of persons interviewed in the field. By the month of May, the final form of the questionnaire had been approved and the above named firm embarked upon its survey. The final results of that survey were submitted to the committee in July, 1948, in the form of a report, a copy of which is attached hereto, and made part of this committee report.

After analysis by the committee of the survey and of the recapitulation of the results thereof set forth under the title "In Our Opinion" at the conclusion of the surveyor's report, and particularly upon analysis of the results of the voting upon Proposition No. 13 submitted to the voters at the last general election, the committee has come to the unanimous and unqualified conclusion that it should recommend, and it does hereby recommend, that the Legislature take no action in the direction of submitting to the voters of the State any proposal modifying in any way the present organization and apportionment of the Legislature.

The decisive defeat by the people of Proposition 13, after an intensive campaign, would be sufficient in itself to indicate a lack of public desire for any such change, but it is particularly to be noted that even prior to the election campaign, the results of this survey indicated that upon being informed of the theory upon which the federal plan was adopted and approved by the voters on two occasions more than twenty years ago, the people of the State were in substantial opposition to any change in a proportion of approximately 43 to 35.

On September 28, 1948, the committee held a meeting to hear from the Department of Motor Vehicles on the subject of the relative success of the mechanized system of motor vehicle registration, at which time the need of the department for a deficiency appropriation to enable it to complete the work of registration through the time when regular budget appropriation would be available was considered. The matter was gone into at some length, and it was demonstrated to the satisfaction of the committee that such deficiency was justified, and the committee shortly thereafter was advised that the Legislative Auditor, who had been making a thorough study and analysis of the situation in the department, also believed the request to be justified and that his recommendation would be received and considered by the Legislative Budget Committee. The committee therefore found it necessary to make no recommendation as such to the Legislature in this respect.

Senator Regan moved that the Secretary of the Senate be directed to communicate to Miss Petronella Rollins, Amending Clerk of the Senate, the sincere regret of the Members of the Senate that she is indisposed and the hope that she may experience a speedy recovery.
